

Carina provides a safe and easy-to-use care matching service for families and individuals seeking home care, and home care professionals seeking good jobs.

In partnership with the State of Washington and SEIU 775, Carina provides a safe, easy-to-use, care matching service for families and individuals who are in need of home care and connects care professionals with good jobs close to home. Carina makes it easy for clients and care providers to find their best match quickly and conveniently.

EMPOWERS CLIENTS AND CARE PROVIDERS

Carina provides an easy way to find the best match for care providers and home care clients, whether they are looking for long-term, back-up or respite care.

VERIFIED CONTRACTED IPs AVAILABLE NOW

All care providers on Carina have received training and are verified through our partnership with SEIU 775 Benefits Group. This includes credentialing from the Department of Health.

By drawing from an existing, trained workforce, clients can have full confidence that the provider they select is qualified and ready to work.

MATCHING WITH NEARBY PROVIDERS

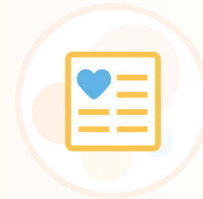

Clients can browse and search for qualified providers that meet their individualized needs and priorities, including location, care needs and home environment preferences.

Carina's location-based matching calculates travel distance and notifies users of the clients or care providers closest to them.

RESPONSIVE TO OUR COMMUNITY

Carina partners with clients, care providers, state and local government agencies and other community partners to ensure clients and care professionals are matched with great jobs and high-quality care.

HOW IT WORKS

Step 1: Register

Caregivers and consumers activate their Carina account by going online and answering a few questions.

Step 2: Match

Users can then explore job posts and profiles, and connect with someone who meets their needs.

Step 3: Authorize

Consumers must call their case manager to finalize a provider's authorization and get started.
