SEVERITY: Severity means the seriousness of a violation as determined by the actual or potential negative outcomes for residents and subsequent actual or potential for harm. Outcomes include any negative effect on the resident's physical, mental, or psychosocial well being (i.e., safety, quality of life, quality of care).

LEVELS OF SEVERITY:

Minimal: Violations that result in little or no negative outcome and/or little or no potential harm for the resident.

Moderate: Violations that result in negative outcome and actual or potential harm for the resident.

Serious: Violations that result in negative outcome and significant actual harm for the resident that does not constitute imminent danger; and/or, there is a reasonable predictability of recurring actions, practices, situations, or incidents with the potential for causing significant harm to a resident.

Imminent Danger/Immediate Threat: Serious physical harm to or death of a resident has occurred, or there is a serious threat to a resident's life, health, or safety.
