

Instructions on finding Case Manager information in PRISM

Finding Case Manager Contact Information in PRISM

If a Care Coordinator is having difficulty getting in contact with a client, they may want to see if there is a case manager assigned who may have current contact information. Speaking with case managers may also help with coordinating services for clients.

To find out if there is a case manager with HCS/AAA/DDA go to the CARE tab in PRISM. If there is an assessment, it will show under “Long Term Care Assessments”. Assessments will be listed as current, pending or history. If there is no assessment, or if the most recent assessment is listed as “history”, the client may not have a current case manager.
