

# COMMUNITY REPORT

TRAUMATIC BRAIN INJURY STRATEGIC PARTNERSHIP ADVISORY COUNCIL OF WASHINGTON STATE  
JULY 2022 - JUNE 2023

The past year was one of major progress, program delivery, and accomplishment by the TBI Council, Executive Committee, DSHS TBI Team, and statewide partnerships.

## Milestones

- 10,636 people with TBI contacted WA211 and were connected to 30,898 community-based resources
- 32,000+ participants engaged in 100+ SafeKids events
- 225+ TBI Virtual Support Groups tailored to support TBI, paid and unpaid caregivers, providers, veterans, and people in corrections facilities.
- 2,600 participants for TBI workshops and videos
- 3,000 users of the TBI Skill Builder training materials
- 72,000 engaged with educational videos on TBI and injury prevention
- 700+ people within the corrections system were provided TBI screening and support
- 55,000 views of TBI Council resources and support materials, doubling engagement from previous year

## TBI Information & Referral by WA211

Since November 2022, WA211 has connected 10,636 people who have experienced a traumatic brain injury to more than 30,898 community-based resources.

*kids, families, & other attendees*

**100+**

*events held statewide*

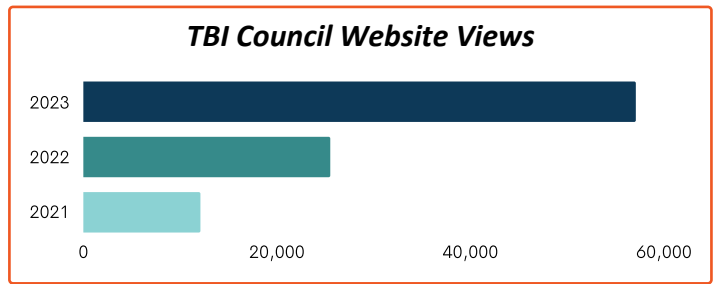

# TBI Awareness & Outreach

[TBI Council website](#) was refreshed to be more person-centered, trauma-informed, and resource-intensive. Traffic to the website has more than doubled since last year.

A [TBI Resources and Workbook](#) was developed to help those experiencing TBI. The 55-page workbook is filled with information, resources, journal prompts, and more.

TBI-related educational videos created by the TBI Council and partners reached 72,000 views. The 17 videos covered topics such as: What is a TBI, What are Person Centered Practices, Self Care for Caregivers, Cognitive Behavior Changes with TBI, and TBI Inside Corrections.

# Workforce Training & Support

## TBI Behavioral Health ECHO with University of Washington

- Virtual and on-demand learning and case consultation opportunities
- Connects and supports providers, caregivers, families, systems, and communities of practice
- 700+ participants statewide

## TBI Skill Builder

- Virtual training modules to support people working with TBI in a range of settings and environments
- 3,000 users of training and support materials

## Return to School (RTS)

- TBI learning resources and Brain Injury Management Toolkit to support students, school faculty, providers, parents, family, and caregivers
- 40,000+ education and resource users
- 14,000 RTS Webinar attendees

## Building Capacity in Brain Injury Workshops

- 20+ Live workshop series with recorded workshop library
- Topics tailored to inform and educate general public, providers, caregivers, institutions, and key workforces

## Department of Corrections (DOC) TBI Pilot-to-Program

The DOC TBI Pilot-to-Program is supporting 700+ people within the corrections system. Initial screening shows that 72% of Incarcerated Individuals have experienced a TBI versus only 8% of the public. Through screening and identifying a TBI, the program helps people understand TBI-related symptoms or behaviors that can lead to re-offending and recidivism.
