## Background

On April 2, 2015, the Court ordered the Department of Social and Health Services (DSHS) to file monthly reports with the *Trueblood* Court Monitor on efforts to comply with Court orders to provide timely competency evaluation and restoration services to Class Members:

"Defendants shall file a report with the Monitor on the fifth day of every month, which shall include:

- (1) the number of days between when a court ordered provision of competency services and when provision was completed, for each person ordered to receive competency services during the previous month;
- (2) data regarding the number of evaluators, bed capacity, physicians, and other resources needed to provide timely competency services;
- (3) the steps taken in the previous month to implement this order;
- (4) when and what results are intended to be realized by each of these steps;
- (5) the results realized in the previous month;
- (6) the steps planned to be taken in the following month;
- (7) certification by Defendants that they are fully compliant with all deadlines that became due in the previous month;
- (8) Defendants' estimate for when the wait times will reach seven days or less, and all data relied on in making that estimate; and
- (9) any other information the Monitor informs Defendants is necessary for the Monitor to fully review Defendants' actions and advise the Court."

The following report is submitted this 15th day of February, 2016 and covers the events of January, 2016. The 2<sup>nd</sup> day of January, 2016 represented the initial deadline set by the Court for full compliance with the seven day requirement for completing competency evaluations in jail, admitting defendants for in-patient evaluations, and admitting patients for competency restoration services upon a finding that they are not competent to stand trial. On December 30, 2015, having found that we would not be able to meet these deadlines despite our continuing efforts toward doing so as laid out in our preceding monthly reports, DSHS submitted a motion to modify the Court's injunction, seeking an extension of the deadline to May 27, 2016. On January 2, 2016 DSHS was not in full compliance with the Court's seven day requirements for providing competency evaluation services or restoration services. On February 8, the Court issued an Order granting the motion for an extension with certain additional requirements and benchmarks leading up to May 27, 2016. As of January, 2016, the period covered by this report, we continued to work toward compliance with the Court's initial April 2, 2015 order. In future monthly reports we will address our compliance with the Court's February 8 Order and the specific benchmarks that it sets.

## **Class Member Status Information**

This report provides the class member data for Competency Services displayed in two periods—December 1, 2015-December 31, 2015 and January 1, 2016-January 31, 2016. The December data is considered "mature" and the January data is a first look data set. April 2015 is the baseline month for data analysis.

The data is organized first into tables and graphs that show the trends forming over time.

Specific class member information is included in the following appendices to this report:

Appendix A: Class Member—Evaluation Information for December 2015 Appendix B: Class Member—Restoration Information for December 2015 Appendix C: Class Member—Evaluation Information for January 2016 Appendix D: Class Member—Restoration Information for January 2016

## Analysis of Data: April 1, 2015 through December 31, 2015

- Orders received of all types were up in December from November, but at approximately
  the average level over the measured period. Inpatient evaluations had the largest
  percentage increase, but due to their relative infrequency the increase represents only
  six additional cases.
- Data for jail-based evaluations shows improvement through December and into January at both hospitals. Although December saw a decrease at WSH in the number of evaluations completed in 7 days, the median and average times continued to move lower as they have in previous months. This trend has continued into January. At ESH we have seen continuing improvements in all measures for jail-based evaluations through December and January.
- Data for restorations and in-patient evaluations continues to show high wait times as additional restoration beds had only begun to come online. Initial January numbers begin to show improvement at ESH, where 15 additional beds added in late December represent a substantial increase relative to monthly referrals. Figures for WSH show more modest improvements which may be tied to the additional beds in Ward S4.

## Outlier cases in which defendants waited more than 100 days

For evaluations, class member 3770 and 2465 from WSH shows wait times of 119 days and 105 days, respectively. However, on review these referrals were found to be withdrawn. At ESH, class members 2328, 2531, 3378, 4065, 2566, and 2578 show wait times of 105, 113, 119, 141, 108, and 102 days, respectively, referencing the longer of the wait times between December and January. Delays for these patients were tied to factors including 1.) transfers between orders for jail-based or inpatient evaluations for class member 2328, 2.) defendant cooperation and attorney availability for class member 2531, 3.) transfers from custody to personal recognizance for class member 3378, 4.) a 118-day delay in the receipt of the order for class member 4065, and 5.) in two cases (class member 2566 and 2578) an error in the logging process in ESH's electronic tracking system. For class members 2566 and 2578 our review found that although the orders were signed in September, the individuals were not initially

logged on the waiting list. This error caused a delay of approximately 60 days, and was discovered upon a manual review of the paper files for open referrals on November 2, 2015. Delays in scheduling and completion of these two evaluations at that time reflected in part the length of the waitlist and holiday schedules. On discussion of these issues with staff at ESH, we found that the failure to detect this issue sooner resulted from two factors. One was the practice as of September, 2015, of not checking the "waiting list" box within ESH's data system until the discovery documents were received. This practice has been amended such that, currently, the "waiting list" box is checked immediately upon receipt of the court order. Accordingly these cases will now show up on the waiting list, even if all necessary documents have not been received. A second factor was the length of the backlog in October and November resulting in less frequent review of the paper files. At this time the paper files are reviewed more frequently to identify potential omissions from the waitlist.

For restorations, class members 2288, 2616, 2942, and 3000 from WSH show wait times of 116, 137, 132, and 100 days respectively, referencing the longer of the times between December and January. For class member 2616 the delay has been in part due to the patient's refusal to cooperate in transfer. For class member 2942 the delay has been in part due to a delay in receiving medical clearance. At ESH, class members 2335, 2654, 2656, 3406, 3407, 3408 show wait times of 103, 103, 100, 113, 109, and 100 days, respectively, each for December. For ESH we had no restoration cases over 100 days for January. At ESH, inpatient evaluation class member 3794 shows a completion time of 117 days for December and inpatient class member 4018 shows a wait time of 108 days for January. For restoration and inpatient evaluations, the wait times continue to reflect limited bed space as in previous months, although the January data suggests some improvement at ESH.

## Class Member Status Data Graphs (January data is "First Look" and subject to change)

## **Resources Required to Provide Timely Competency Services**

## **Need Projections and Bed Capacity**

The investment made by the Legislature in the 15-17 biennial budget and the short and long-term strategies that are being undertaken will enable Washington to provide competency services within the seven-day time frames established by the Court. Washington is making every effort to provide competency services within the seven-day standard as soon as is possible.

In previous months we have recognized that due to setbacks including the impact of the CMS survey on limiting our ability to add capacity at the state hospitals, we would not be able to meet the Court's initial January 2, 2016 deadline for providing competency restoration and evaluation services within seven days. We submitted a motion on December 30, 2015, requesting that the Court extend the initial deadline and allow until May 27, 2016 in order for DSHS to achieve full compliance with the Court's order. This motion was granted on February 8, 2016 with certain additional requirements and benchmarks set out by the Court. We will therefore continue to work toward meeting the May 27, 2016 deadline as well as the intermediary benchmarks, and anticipate that we will be able to do so.

The primary issue in meeting these deadlines continues to be our ability to expand overall capacity in providing competency evaluation and restoration services. As early as July, 2015 we were able to begin adding new forensic evaluators at both hospitals. However, the process for adding restoration capacity has required substantial investments that carry a longer lead time. With January's data, we are pleased to be seeing progress in both areas.

For evaluation services, in late 2015 we have begun to see substantial impact from the new evaluators, and this impact is more apparent in January, 2016. As of the end of January, the longstanding list of unassigned referrals for jail-based evaluations out of WSH and ESH have essentially been removed. Figures for the North Regional Office, associated with WSH, show that the waitlist has been reduced but not completely eliminated. This progress is illustrated in January's data for median and average completion times, and we expect these numbers to improve further for February. We note that this reduction in the waitlist does not mean that referrals can immediately be seen by an evaluator in every case; aside from individualized delays for reasons such as attorney availability, there continue to be "rushes" of referrals that cause the waitlist to grow and recede over the short term. However, these reductions in the waitlist will allow us more closely to examine the factors that continue to delay the evaluation process beyond seven days.

For restoration services, we appear to be seeing some improvement in wait times at ESH with the addition of 15 new beds in the 3S ward. At WSH, we have also noted the addition of 15 beds in the S4 ward. However, we expect more substantial reduction of the waitlist for restorations and inpatient evaluations to rely on the addition of beds at the Maple Lane and Yakima facilities. We expect for this process to continue as each facility comes on line so that we can meet each of the Court's incremental deadlines leading up to May 27, 2016.

The anticipated compliance dates are based on the estimates and data, detailed below, that were included in the Long Term Plan dated July 2015 and subsequent monthly reports.

Fiscal and program staff from DSHS and the Washington State Office of Financial Management modeled additional bed capacity needed to meet a seven-day standard for admission with assumptions of increases in demand at ten percent and twenty percent. The following graph illustrates the model as applied to WSH and ESH.

For mentally ill defendants ordered to receive competency restoration treatment, additional inpatient forensic hospital bed capacity must be developed or made available. Based on projections in the chart above, it is estimated that compliance with a seven-day standard will require 90 beds during the 15-17 biennium.

## 2015-2017 Biennial Budget to Support Improvements to the Forensic Mental Health System

The two-year operating budget for the period of July 1, 2015 to June 30, 2017 (hereafter referred to as the 15-17 biennial budget), enacted by the Legislature on June 29, 2015 and signed by Governor Jay Inslee on June 30, 2015, includes an investment of \$40.5 million in new funding. Table One details the funding provided in the 15-17 biennial budget.

Table One: New Forensic Mental Health System Funding in the 15-17 Biennial Budget

Budget Item	FTE's	Dollars (Millions)
Competency Evaluation Staff	18.0	\$ 4.67
Competency Restoration Beds	129.2	\$26.86
Non-Felony Diversion	0.0	\$ 4.81
Office of Forensic Mental Health	11.0	\$ 4.18
Tota	l 158.2	\$40.52

Table Two shows the increases for forensic evaluator and competency restoration bed capacity and Table Three details the specific new staff positions funded in the 15-17 biennial budget.

## **Trueblood Key Accomplishments--January 2016**

#### HIRING

• We continue to focus on hiring to expand both our evaluation and restoration capacity. Recruiting, hiring and retaining a sufficient number of qualified staff to fill psychiatrist, psychologist, registered nurse, and social worker positions needed to fill vacancies to safely operate new and existing wards at the state hospitals has been an ongoing challenge. In recent months one element of our response to this challenge has been to contract for additional capacity at residential treatment facilities in Centralia and Yakima. Pursuant to the Maple Lane contract in Centralia, we are moving forward aggressively to hire DSHS staff positions that are designated to support the operation of the facility, while the private contractors have taken responsibility for providing medical and other professional staff. In recent weeks we sought and acquired temporary assistance in developing the DSHS staff positions for Maple Lane to stay on schedule through use of a non-permanent appointment.

#### RECRUITMENT

- During a four week period ending in mid-January, identified and sourced four psychiatrists. Telephone interviews are being scheduled.
- Recruited a psychologist for an open forensic evaluator position at WSH. Candidate was to be interviewed during early February.
- A nurse and MHT hiring event was held in Spokane in late January. Nine MHTs, one PSA and an RN3 were identified and interviewed.
- Recruiting team attended job fair for soon-to-be LPNs at Bates Vocational/Technical School in Tacoma. Over 30 LPNs signed-up on the
  data sheet. Several of these were doing school related training at WSH. Bates will have a graduating class ready to become licensed in
  late February, early March. Students from the 2016 classes were also spoken with and encouraged to look at training opportunities as
  they arise at WSH. Overall, the event was well attended and organized and should be a good source of LPN applicants in the next
  several weeks.
- Maple Lane job announcements for RRCs and SGs were written and reviewed and positions have now been established and posted on www.careers.wa.gov. To date, the posting have received over 1,000 "hits" (people opening and reading the announcements). As of 2/8/16, there were 67 official applicants. (NOTE: There is interest in these positions from current staff at SCC, Green Hill School and Western State Hospital. Applicants not chosen for the Maple Lane project will be shared with those facilities to avoid a potential "domino effect".)
- The position of Residential Services Manager at Maple Lane was established and the job announcement was prepared for posting on February 5.
- A job fair aimed at filling Maple Lane staffing needs for RRCs, SGs and maintenance was set for Friday, February 12. The fair will be held on-site. Some interviewing will occur. Recruiter is working with Employment Security Department, WorkSource, and the Thurston Chamber of Commerce to advertise and promote the fair.
- Formal interviews for RRC and SG positions at Maple Lane will be held in mid to late February.

#### **REDUCING STATEWIDE EVALUATION WAIT TIMES**

• The wait lists at ESH and WSH for in-jail evaluations have been substantially reduced. This progress is discussed below.

#### RESIDENTIAL TREATMENT FACILITIES

- Yakima: DSHS has now completed negotiations and finalized a contract with Central Washington Comprehensive Mental Health, to open up 24 Competency Restoration beds at the currently vacant Yakima County Correctional Center, effective March 1, 2015.
- Contractor Correct Care Recovery Services (CCRS) staff visited Washington January 13-14 for strategic planning purposes and to tour both forensic wards at WSH and the Cascade Cottage at Maple Lane. CCRS also met together with DSHS and Dept. of Health to touch base on licensure requirements, timelines and progress to date. DSHS position descriptions were drafted and are set to post the first week in February. Construction activities continue and are expected to be complete on 3/1/16. Ordering linens, clothing, personal products, commissary, mattresses etc. is underway. Food preparation and transportation logistics have been drafted, and a work van and patient transport vehicle are secured.

Consult with DOH about draft legislation requiring DOH certification of forensic evaluators to determine the need for a sunrise review	Consult DOH	Ongoing	<ul> <li>Expanded pool of forensic evaluators would help improve timeliness. Licensure would provide quality assurance and create professional standards for forensic evaluators.</li> <li>Develop long-term certification of forensic evaluators, consistent with the Trueblood Court Monitor's recommendations on midand long-term performance to implement a forensic certification program to sustain performance (p. 33 of the Monitor's Quarterly Report to the Court)</li> </ul>	DSHS/BHSIA staff met with DOH on 12/15/15. DOH expressed a number of concerns, and focused on the following two barriers: • Timing considerations. DOH stated that the best case scenario to establish a credential program for forensic evaluators (licensing or certification) would take at least two years, with an existing training/educational program. Lacking such a program, it would likely take longer. Per DOH, it would be best to conduct a sunrise review, requiring a formal legislative request and additional DOH review. • Feasibility/sustainability. DOH expressed concerns about funding. Funds are derived from a licensing program, particularly licensing fees, and must be self-sustaining. DOH cannot expect a legislative subsidy. Considering economies of scale here, the cost for annual licenses may be prohibitively high.
