BACKGROUND

On April 2, 2015, the Court ordered the Department of Social and Health Services (DSHS) to file monthly reports with the *Trueblood* Court Monitor on efforts to comply with Court orders to provide timely competency evaluation and restoration services to Class Members. This monthly report is submitted February 15, 2017 and covers the events of January 2017. This report also provides status updates on additional court order requirements.

On April 2, 2015, the Court ordered:

"Defendants shall file a report with the Monitor on the fifth day of every month, which shall include:

- (1) the number of days between when a court ordered provision of competency services and when provision was completed, for each person ordered to receive competency services during the previous month;
- (2) data regarding the number of evaluators, bed capacity, physicians, and other resources needed to provide timely competency services;
- (3) the steps taken in the previous months to implement this order;
- (4) when and what results are intended to be realized by each of these steps;
- (5) the results realized in the previous month;
- (6) the steps planned to be taken in the following month;
- (7) certification by Defendants that they are fully compliant with all deadlines that became due in the previous month;
- (8) Defendants' estimate for when the wait times will reach seven days or less, and all data relied on in making that estimate; and
- (9) any other information the Monitor informs Defendants is necessary for the Monitor to fully review Defendants' actions and advise the Court."

The April 2015 order was modified on February 8, 2016, another order was issued on July 7th, and another order was issued on August 15, 2016. Status updates on these orders begin on page 28.

This report provides the class member data for Competency Services displayed in two periods—December 1, 2016 – December 30, 2016 and January 1, 2016 – January 31, 2016. The December data are considered "mature" and the January data are a "first look" data set. April 2015 is the baseline month for data analysis.

Specific class member evaluation and restoration information is included in the appendices to this report.

CLASS MEMBER STATUS SUMMARY INFORMATION

Analysis of Data: April 1, 2015 through January 31, 2017

The average monthly referrals for each type of service are as follows:

Average monthly jail-based evaluation orders signed for April 2015-January 2017

WSH: 207.1ESH: 46.9

Both hospitals: 253.9

Average monthly inpatient evaluation orders signed for April 2015- January 2017

WSH: 17.1ESH: 6.4

Both hospitals: 23.5

Average monthly restoration orders signed for April 2015- January 2017

WSH: 71.9ESH: 12.2

Both hospitals: 84.1

<u>Summary Points Related to Orders and Timeliness (Appendices A-D)</u>

- Jail-based evaluation orders at WSH were at 174, which is lower than the 207.1 average. ESH had 59 orders, which is higher than the 46.9 average. Combined, the hospitals totaled 233 orders, which is lower than the 253.9 average.
- In-patient evaluation orders at both sites were 27 in December, which is higher than average. WSH received 18 compared with a 17.1 average. ESH had 9 orders, which is higher than the 6.4 average.
- There were 101 restoration orders across both hospitals, which remains higher than the 84.1 average. WSH orders increased to 90 in December (average is 71.9). ESH decreased to 11 orders in December.
- Regarding jail-based 14 day evaluation wait times, WSH is stable at 13.3 days from order to completion
 and ESH has decreased to averaging 10.2 days, which is lower than any month to date. The combined
 average is 12.7 days.
- The average inpatient evaluation wait times at WSH is 26.5 days (29.9 last month). *The ESH average is at 6.6 days*. The combined average is 21.1 days.
- Restoration wait times at WSH in December were 24.3 days on average. *The ESH average is now 2.7 days*. The combined average is 21.4 days.
- Overall timeliness for jail-based evaluations is at a 57% completion rate within 14 days.
- Overall timeliness for inpatient evaluations is at a 22% completion rate within 7 days.
- Overall timeliness for inpatient restorations is at 17% completion rate within 7 days.

Outlier cases

In the current report, there were 6 evaluation cases that were considered 'outliers', as previously defined, as of the end of the reporting period. The number of days from court order to the end of the reporting period ranged from 23 – 58 days. Of those 6 cases, 5 were inpatient evaluations and 1 was an outpatient (jail) evaluations. The outpatient (jail) evaluation was delayed, as the state hospital did not receive the ordered report from the court until 25 days after the date it was ordered. The inpatient evaluations all received a bed within 9 days of this report, with one case delayed in part due to the late receipt of the court order (18 days) and four cases with no reason stated for the delay.

In addition, in the current report, there were 22 restoration cases that were considered 'outliers,' as previously defined, as of the end of the reporting period. The number of days from court order to the end of the reporting period ranged from 44 - 73 days. With updates to the data system since the end of the reporting period, 3 of the 22 cases were delayed at least in part due to late receipt of the court orders, and the remaining 19 were all offered beds and admitted within 3 weeks of this report, with no reason stated for delay.

TABLE 4. Summary of jail evaluations, in-patient evaluations, and restorations by month since February 2016. NOTE: These data (percent days or less) are based on the month that the court order was signed and will therefore be different from the data shown in Tables 1-3, which is based on the month the order packet was completed. January numbers are first look, and percentages will increase as many cases (those with orders at the end of the month) will close within the fourteen day window.

RESOURCES REQUIRED TO PROVIDE TIMELY COMPETENCY SERVICES

Need Projections and Bed Capacity

The investment made by the Legislature in the 15-17 biennial budget, and the short and long-term strategies that are being undertaken, will enable Washington to provide competency services in accordance with the established time limits. Washington is making every effort to provide competency services within the seven-day and fourteen-day standards as soon as it is possible.

Compliance projections were initially based on the estimates and data included in previous monthly reports, the Long Term Plan dated July 2015, and the May 2016 revised Long Term Plan. An updated projection model was developed and preliminary results were submitted to Dr. Danna Mauch on July 29, 2016. In September (and later finalized in November), DSHS prepared the next draft of the wait-time projections model for when the Department may meet the 7-day compliance requirement for inpatient competency services using the most recent 12-month data available at that time (August 2015 to July 2016). The results and interpretations of that model were included in the December report. DSHS is currently working to update the projections based on more recent data that reflect changes in system performance since July 2016, and will share the results when they are completed.

OFMHS did not hire any inpatient forensic evaluators in the month of January while continuing to interview for 1 inpatient evaluators at ESH, 1 outstation evaluator for Yakima County, and three supervisor positions. An offer was made and accepted by a forensic evaluator supervisor position with a start date of April 3, 2017. The individual who accepted the Thurston County outstation position in December resigned the position in January; as such recruitment for this position resumed. A tentative offer was made to a forensic evaluator supervisor in the month of October, which is still pending at this time. OFMHS also had a Secretary Senior position that was offered and accepted in January with a start date of February 16, 2017. The recruitment effort for forensic psychologists and forensic psychologist supervisors continues for OFMHS. Five positions remain in recruitment status – three supervisor positions and a forensic evaluator in Spokane and one in Yakima.

TRUEBLOOD KEY ACCOMPLISHMENTS – JANUARY 2016

RECRUITMENT

- Recruitment efforts continue on the Systems Improvement Agreement (SIA) project. It is estimated that
 there will be over 300 positions added at WSH. To date, the SIA recruitment team has identified and
 referred over 1000 vetted candidates for a variety of positions.
- The Talent Acquisition team has recruited over 1600 vetted candidates to fill 178 positions for the WSH Emergency Hiring Project.
- Ted Koska will assume the role of Talent Acquisition Manager at the WSH Hiring Center effective immediately. The Hiring Center direction will be changing significantly over the next couple of months.
- A strategy and staffing plan for a physician and psychiatrist dedicated recruitment unit for Eastern and Western State Hospitals has been approved by Acting Secretary Pat Lashway.
- Recruitment continues at Maple Lane for Residential Rehabilitation Counselor and Security Guard positions vacated by natural attrition.

RESIDENTIAL TREATMENT FACILITIES

- As of January 31, the census at the Yakima Competency Restoration Program was 21. A total of 91 patients have been admitted since the program opened. Out of this total, 51 completed the program and were determined competent, 11 were determined not likely restorable, 13 were recommended for an additional period of restoration and received an order for an additional 90 days of restoration services, which were provided at the Yakima program. A total of 8 patients have been transferred to the state hospital. Thirty-five (35) patients have been recommended for early evaluation.
- As of January 31, 2016, the census at the Maple Lane Competency Restoration Program is 25. A total of 148 patients have been admitted since the program opened. Of these, 131 patients have been discharged. 75 completed the program and were opined competent. 16 were determined not likely restorable. 21 misdemeanor patients were not restored and by law could not be offered an additional period of restoration services. 10 have been transferred to the state hospital. Of these 10, 7 patients were transferred due to physical aggression, 1 for sexually inappropriate behavior and 2 were transferred for medical reasons. 3 patients were returned to jail. 1 for severe aggression, 1 to await a Sell Hearing and 1 at the request of the defense attorney to be present for his SELL hearing. 2 patients were not evaluated at the facility and was returned to jail on the last day of their restoration order. 1 patient was Not Competent but restorable left for SELL hearing at the end of 1st restoration and returned. 3 patients were not competent but restorable, however a 2nd 90 was not issued prior to the end of the 1st restoration period. (2 left for jail and later returned, 1 was diverted to WSH) 33 patients have been referred for early evaluation. 19 patients since admission have been recommended for and received a 2nd 90 order.

TRUEBLOOD IMPLEMENTATION STEPS TAKEN AND PLANNED—JULY 2016

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
Court Appointed N	Ionitor Coordination			
Monthly Reports	Release 12/30 report	Complete	Maintain compliance with the Court.	Released January report to Stakeholders following review of Court Monitor.
	Submit 1/15 Report	1/15/2016	Use data to review and improve the provision of forensic services.	review of Court Monitor.
Legislative Coordin	ation		,	,
Implement Engrossed Substitute Senate Bill (ESSB) 6656: Funding applications	Apply for funding from the Office of Financial Management (OFM) from the Governor's Behavioral Health Innovation Fund relating to the state hospitals' forensic systems.	Passed legislature. Expires on July 1, 2019 per Section 14.	 Section 5(2) requires OFM to contract with an external consultant to examine the current configuration and financing of the state hospital system and make recommendations on a number of different areas, including identification of the potential costs, benefits, and impacts associated with dividing one or both of the state hospitals into discrete hospitals to serve civil and forensic patients in separate facilities. The consultants' report is due to the Governor and Legislature by Oct. 1, 2016. Section 5(3) requires DSHS to contract for the services of an academic or independent state hospital psychiatric clinical care model consultant to examine the clinical role of staffing at the state hospitals. The consultants' 	 The Select Committee for Quality Improvement in State Hospitals met on December 20, 2016, with further discussion of the recommendations in the final reports from consultants engaged pursuant to Section 5 of ESSB 6656. Discussion of Governor Inslee's mental health budget to implement the recommendations was also heard. Complete meeting materials are available at: http://www.governor.wa.gov/issues/issues/health-care-human-services/select-committee-quality-improvement-instate-hospitals Jail Diversion Consultant: The Governor's Office executed a contract with Joplin consulting to examine how to best divert persons with mental illness from the criminal justice system and identify appropriate funding mechanisms. Joplin consulting started the process of interviewing key stakeholders and sending out a survey during the month of August. On 8/26, Dr. Kinlen and the Liaison participated in a conference call with Lore Joplin. Two additional meetings occurred with the last meeting with the consultants held on October

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
			report is due to the Governor and Legislature by Oct. 1, 2016. • Section 6 creates the Governor's Behavioral Health Innovation Fund in the state treasury. Only the director of financial management or designee may authorize expenditures from that Fund, which are provided solely to improve quality of care, patient outcomes, patient and staff safety, and the efficiency of operations at the state hospitals.	21, 2016. DSHS reviewed current diversion efforts by OFMHS and provided recommendations to the consultant group for next steps. The final recommendations report was submitted to the Legislature of 12/2/16. OFMHS has reviewed the recommendations and have included them in the community conversations with counties.
Consult with DOH about draft legislation requiring DOH certification of forensic evaluators to determine the need for a sunrise review	Consult DOH	Ongoing	 Expanded pool of forensic evaluators would help improve timeliness. Licensure would provide quality assurance and create professional standards for forensic evaluators. Develop long-term certification of forensic evaluators, consistent with the Trueblood Court Monitor's recommendations on mid- and long-term performance to implement a forensic certification program to sustain performance. 	• The DSHS/OFMHS forensic evaluation training and certification workgroup proposed a plan to standardize training of forensic evaluators and to develop a certification program. The initial phase of the certification program will be to develop and evaluate a training/certification program for current state employees to inform state-wide implementation. A state-wide certification program will require legislation and funding. DSHS will continue to work with DOH and other stakeholders regarding the next steps in considering evaluator certification. DOH has suggested that a sunrise review be conducted, which requires a formal legislative request and additional DOH review. DSHS/OFMHS held initial meetings with Labor in December 2016 to discuss the plans. The legislative request will be submitted in 2017.

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
Labor Coordination				
Engage Labor Leaders and Members	Conduct ongoing bi- monthly meetings with Labor leaders	Ongoing	 Discuss policy, budget and operational changes likely required to comply with the Trueblood requirements. Obtain staff necessary to safely support operation of additional forensic and civil beds at the state hospitals. Obtain necessary psychiatrists and physicians to supplement services proved by employees at Western State Hospital to safely support the operation of additional forensic and civil beds. 	All contract negotiations were completed and the contracts were ratified by their perspective members prior to midnight on October 1st. It is important to note that all of the contracts are subject to legislative approval.
Data Collection and	Fiscal Modeling			
Monthly report data collection	Identify and obtain needed data	Ongoing	Obtain data for monthly reports and develop standardized reports to inform policy development and implementation.	Data collection is ongoing.
Institute data audit process	Review data and files of cases with anomalies and identify trends	Ongoing	Ensure completeness and accuracy of wait list data.	Data validation process is ongoing.

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
Hire Lead Developer Position	Recruit, hire and onboard	Complete	 Build a technology solution to establish a common platform to transmit data between the State Hospitals and over 240 different jurisdictions to improve timeliness. Provide hands-on partner training across the system. 	Full complement of Development Team on board Lead Developer, Web Developer, and Senior Developer.
Forensic Data System Design/ Development	Build data models	Use case Architecture complete.	Integrated Forensic System with consistent data entry and tracking of all class members from creation of court order for mental competency evaluation through completion of evaluation and / or restoration (whichever is later).	 Interviewed and selected Independent Verification and Validation (IV&V) consulting firm. Briefed principals on full project. (Note: IV&V required by state OCIO for projects assessed at this risk level - Level 2.) Full team review of all artifacts.
	Finalized Gaps analysis	Complete	Provide capability for access by evaluators to discovery documents and	Restarted work on project schedule with input from new team members. Will review with IV&V
	Finalized task list and timeline	Plan revised and updated through Design Components	any status changes, regardless of location, to reduce delays. Provide platform for quality reporting from single system, eliminating the variability currently inherent in	consultants.
	Establish Project Governance charter	Complete	leveraging legacy applications not meant for this purpose.	
Human Resources		l		
Hire Office of Forensic Services HQ positions	Hire and Onboard	Complete		 There are no vacancies in OFMHS HQ. Interviews started in August to hire two forensic supervisors and interviews have continued. One tentative offer has been made to a forensic evaluator supervisor. A second offer was made and accepted with a start date of April 3, 2017. A third

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
				offer was discussed and applicant will be visiting Washington in February 2017 and meet with staff before a final decision is made.
Hire additional hospital ward staff	Conduct targeted hiring events	In progress	Obtain required staff of all classes to safely and appropriately operate additional civil and forensic beds and to meet data collection, analysis and	 A new strategy for handling physicians and psychiatrists after they have been referred to WSH by the recruitment team is being discussed and planned.
	Pursue contracting		reporting needs.	
Competency Evalua	ation			
Build capacity for out-station sites	Site agreements	N/A	 Increased capacity at out-station sites will reduce wait time for evaluation. 	The Tri-Cities outstation is operational. An evaluator was selected to provide services to the Maple Lane facility and Thurston County; however
	Out-station sites operational	Completed		in January, the individual resigned her position. Recruitment has resumed to fill this position in Thurston County after receiving word of resignation. No interviews conducted for January in this position.
Coordinate with forensic mental health system partners	Present at the Washington Association of Sheriffs and Police Chiefs (WASPC) annual conference	Ongoing	Conversations with select jails close to hospitals or already designated for outstation sites are focused on creating space for evaluations on a regularly scheduled basis and ability to transport to state hospital. Secondarily to discuss with local defenders associations regarding predictable availability to attend with clients; courts for coordination of timely transmittal of orders and documents; and local mental health agencies for additional supports	 All four prosecutorial diversion programs have formally begun accepting referrals. Programs submitted data on 1/27. Liaison will review and monitor contracts in the month of February. Office of Forensic Mental Health Services Director and Liaison Specialist are participating as members of the WINGS Public Guardianship Steering Committee with the Administrative Office of the Courts (AOC) to explore the possibility of utilizing public guardianship and other less restrictive options to the benefit of the forensic population. The team is working with Aging and Long Term

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
			 and perhaps space where that is identified as a challenge. Presentations at the WASPC conference will provide opportunity to inform about impacts of Trueblood decision and make connections with members for future planning to facilitate transfer and access to reduce wait times and provide competency services. 	Support Administration and the Research and Development Administration to obtain current data on populations best served by guardianships. Liaison participates in an Outreach and Re-Entry Committee lead by the Health Care Authority (HCA), which is exploring diversion options for individuals with behavioral health issues involved in the forensic system. HCA is soliciting input from other agencies for ideas on pilot programming. DSHS, in collaboration with partners, launched a pilot coordinated evaluation calendar (PCEC) in King County Superior Court on May 31, 2016. After a six month pilot period, the PCEC Big Group was reconvened on 12/19 to discuss the future of the pilot. It was agreed that PCEC wasn't working as is and shouldn't be expanded based on the data. An alternate to PCEC was proposed. OFMHS is working in collaboration with plaintiffs, AGs, and Court Monitor on the Diversion RFP Plan. RFPs were reviewed and discussed by the group on 1/9, 1/20, and 1/30. Liaison attended the January BHO Administrator meeting on 1/26 DSHS met with Pierce County stakeholders at the first quarterly collaboration meeting on 1/31. Topics of discussion were: possible causes of increased referrals; the re-evaluation of previously restored defendants; transport to the alternative sites; diversion options and DRW RFP; outpatient competency restoration. The OFMHS presentation abstract titled:

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
Continue current	Establish quality	Ongoing	Obtain data needed from counties in	 Diversion Services in WA: Perspectives from State, Legal, & Law Enforcement Communities was accepted for presentation at the 2017 Washington Behavioral Healthcare Conference. The presentation is a collaboration between OFMHS, a King County prosecutor, and the Snohomish County Jail. Pending county meetings: Clallam (Feb.); Pend Oreille (Feb.); Stevens (Feb.); Okanogan (Feb.); Ferry (Feb.); Franklin (March); Skagit (March) The OFMHS quality management team has initiated
county-conducted evaluation system until 2018	criteria for evaluation reports	Oligonia	order to meet court ordered reporting requirements.	reviews of forensic evaluation reports from 10.77 ordered evaluations. The team has developed a checklist for evaluating forensic evaluation reports. The initial roll out date is scheduled for February/March 2017.
Explore and pursue triage system possibilities	Roll out Phase II	In progress	Establish an efficient evaluation to identify individuals who: need inpatient services due to serious mental health condition; clearly do not require inpatient evaluation services; or are clearly competent due to changes in their condition since the issuance of an order for evaluation (such as no longer drug affected).	On 9/9, OFMHS and the hospitals convened to discuss gaps in the current triage process and next steps of Phase II. It was decided to continue the current process, while pulling together a team of subject matter experts both at the hospital and stakeholder level to develop a comprehensive triage plan. Triage Planning and Implementation Team meetings occurred 10/4, 10/17, and 10/26 Workgroup input will was incorporated into the Planning document submitted to the plaintiffs and Court Monitor November 15. Plaintiffs responded on December 15 with input and comments. Prior to DSHS's response, a status hearing was scheduled on 1/19 to discuss Triage.

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
				 As of 1-31/2017, DSHS has received 44 triage referrals from jail staff and approved 36. Two referrals were admitted to WSH prior to completion of the triage process, one did not have an order for restoration at the time of referral, and five were rejected. On November 2, OFMHS began calling jails when records indicate that there is an in-custody defendant who has been awaiting 14 days for a competency evaluation. The purpose of the communication is to notify jail staff of the Triage Consultation and Expedited Admissions (TCEA) process. As January 2017, 489 phone calls/emails have been made to jails. None have resulted in an expedited admissions referral.
Competency Resto	ration			
WSH; E2 and F3 Wards: add 30 beds	Bed Occupancy	TBD	Serves overall plan to add 90 beds and expand State Hospital bed capacity to meet Court ordered compliance date.	To meet the requirements set out by CMS, DSHS plans to expand at WSH have been postponed.
Provide Restoration Treatment at the Maple Lane Competency Restoration Program	Open Maple Lane facility	Complete	 Identify alternate facility capacity to meet <i>Trueblood</i> compliance. Any competency restoration treatment program at Maple Lane is anticipated to transfer to operation at a State Hospital before DOC would be housing inmates on that campus. 	As of January 31, 2016, the census at the Maple Lane Competency Restoration Program is 25. A total of 148 patients have been admitted since the program opened. Of these, 131 patients have been discharged. 75 completed the program and were opined competent. 16 were determined not likely restorable. 21 misdemeanor patients were not restored and by law could not be offered an
	Restore patients to competency	Ongoing		additional period of restoration services. 10 have been transferred to the state hospital. Of these 10, 7 patients were transferred due to physical aggression, 1 for sexually inappropriate behavior

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
				and 2 were transferred for medical reasons. 3 patients were returned to jail. 1 for severe aggression, 1 to await a Sell Hearing and 1 at the request of the defense attorney to be present for his SELL hearing. 2 patients were not evaluated at the facility and was returned to jail on the last day of their restoration order. 1 patient was Not Competent but restorable left for SELL hearing at the end of 1 st restoration and returned. 3 patients were not competent but restorable, however a 2 nd 90 was not issued prior to the end of the 1 st restoration period. (2 left for jail and later returned, 1 was diverted to WSH) 33 patients have been referred for early evaluation. 19 patients since admission have been recommended for and received a 2 nd 90 order.
Provide Restoration Treatment at the Yakima Competency Restoration Program.	Restore patients to competency	Complete Ongoing	 Anticipated duration of one year and possible one year extension. Identify alternate facility capacity to support timely competency services that will meet the Trueblood compliance deadline of 05/27/16. 	As of January 31, the census at the Yakima Competency Restoration Program was 21. A total of 91 patients have been admitted since the program opened. Out of this total, 51 completed the program and were determined competent, 11 were determined not likely restorable, 13 were recommended for an additional period of restoration and received an order for an additional 90 days of restoration services, which were provided at the Yakima program. A total of 8 patients have been transferred to the state hospital. Thirty-five (35) patients have been recommended for early evaluation.

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
County transport of patients	Coordinate with counties to develop transport protocols	Ongoing	Ensure timely transport of patients to support delivery of competency services as directed in court order.	Pierce County continues to produce court orders that limit transportation only to the state hospital, rather than allowing transportation to the RTFs. Consequently, a letter to Pierce County courts, attorneys and jails is in use, which informs parties that an available bed has been identified at an RTF and could be offered. The letter requests that the parties submit an amended court order that complies with state law. A quarterly meeting was scheduled on 1/31/17 to discuss this and other issues. There were multiple items discussed during the meeting that DSHS is following up on. For example: - Pierce County referrals increased significantly the last year. The group was asked if they had any ideas why. Potential reasons from group: O Lack of housing O The number of WSH patients who assault WSH staff, who are then sent to jail on assault charges O Reaching out to the BHO to clarify community behavioral health intake timeframes, as well as substance abuse program timeframes O The Pierce County Jail had a freeze on misdemeanor bookings which was released in summer of 2015 - Reaching out to the BHO to have them send the group information related to diversion programs in the City of Tacoma and county

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
Divorcion Altorrati				 The jail continues to state that they cannot transport defendants to alternate sites for restoration treatment due to overtime costs. We agreed to work with the jail off-line on identifying a solution to this Looking at whether restoration evaluations could more clearly state that competency was achieved and can only be maintained through the use of medications. This would help the court system and jail if they would like to pursue involuntarily medication when restored defendants return to the jail and refuse to take medication. DSHS encouraged the county to have conversations around the DRW diversion proposals. We would like to see a program proposal from Pierce in the next round of RFPs. Community outpatient restoration
Diversion Alternation		_		
Implement 2E2SSB 5177 (2015) provisions for dismissal of charges & referral to treatment	Diversion Programs are Operational	Ongoing	Prosecutor can dismiss criminal charges without prejudice & refer to community-based mental health services.	 All prosecutorial diversion programs have formally begun accepting referrals. The quarterly monitoring meeting occurred 12/21/16. Quarterly reports were received on 1/27.

Task	Key Milestones	Status / End Dates	Anticipated Outcome & Assumptions	Results Achieved & Barriers to Completion
Increase diversion opportunities	Governor's Office to contract with diversion consultant	In Process	Hire a consultant to identify how to best divert persons with mental illness from the criminal justice system and identify appropriate funding mechanisms with appropriate stakeholders.	 A contract with a Diversion Consultant has been executed. OFMHS has had several phone conferences with the consultants and met with them on 10/21. The final report was released 12/2/16. DSHS is participating in an HCA/DOC/DSHS Reentry Workgroup to discuss service options for individuals transitioning from jail to the community.

FEBRUARY 8, 2016 COURT ORDER STATUS REPORT/UPDATES

The status updates to the February 8, 2016 Court Order are shown below.

1 Implement a trigge system to sort of			acuity of their mental illnesses and their current
manifestations, by the seriousness of t	• •	•	• •
Requirements	Date	Status	Progress Notes

JULY 7, 2016 CONTEMPT ORDER STATUS UPDATES

The three status updates required in the July 7th Court Order are below.

- 1. Monetary sanctions fines are imposed on a per class member, per day basis. On the 15th of every month, DSHS is required to submit contempt fines data to the court. These data will be submitted to the court on December 15, 2016 and will be included in this report when finalized as Appendix I.
- 2. Diversion plans DSHS is ordered to develop, in consultation with the Court Monitor, plans for the expenditure of the contempt fines. The Diversion Workgroup submitted the court ordered Diversion Plan on August 19, 2016. The Diversion Services Request for Proposal (RFP) was submitted to the Court on November 4, 2016. An update on the RFP process may be found on pages 22-23.
- 3. Wait time data DSHS shall submit to the Court wait time data in a manner identical to the data submitted on June 17, 2016 in the declaration of Bryan Zolnikov. These data are included in this report in Table 4.

AUGUST 15, 2016 ORDER MODIFYING PERMANENT INJUCTION AS TO IN JAIL COMPETENCY EVALUATIONS

Pursuant to the August 15, 2016 court order, DSHS must provide in-jail competency evaluations within 14 days of a signed court order. When an in-jail evaluation cannot be completed within 14 days and good cause applies (i.e., delay due to clinical reasons, attorney, interpreter, or defense expert), an extension from the ordering court must be secured or DSHS must immediately admit the individual to a state hospital to finish conducting the evaluation. In order to comply with the reporting requirements of the Court's order, DSHS identified a need to revise both the current process used for seeking extensions from the criminal court, as well as the data collected during that process. Since the August 15th court order, DSHS identified a series of necessary changes that will enable DSHS to comply with the order, to include the following:

- 1. Develop a list of data elements needed to comply with the court order to include additional delay data;
- 2. Develop a data dictionary to define the data elements needed;
- 3. Develop a process of reporting the information to the courts for the exception requests;
- 4. Identify the cutoff date for seeking an exception;
- 5. Develop a standardized form that can be used for seeking good cause exceptions;
- 6. Develop an operating procedure to guide evaluators through the new good cause process;
- 7. Coordinate with the Attorney General's Office to ensure adequate representation;
- 8. Develop a process for collecting the data to report to the courts for the exceptions and to maintain for monthly reporting;
- 9. Develop a model for the delays and the data pertaining to the delays;
- 10. Modify the current IT systems or develop a new database in which to maintain the information once all above steps are completed.

To date, DSHS has completed identification of the data elements, developed a process for the evaluators to collect the data that will be entered and reported to the courts, and developed the data dictionary. The process of reporting the information to the courts and identifying a cutoff date for seeking an extension, and the standardized forms, operating procedure, and coordination for Assistant Attorney General (AAG) representation have been completed. Interim steps for maintaining the data for monthly reporting were identified and implemented while the current IT system is modified. Through use of the interim solution, DSHS is collecting data on use of the good cause exception. The data required to be reported can be found in Appendix K in the final report. A work group has been planned to review the good cause procedure and improve implementation and interim data collection across both hospitals.

APPENDICES

Appendices A – H:

These appendices are included in two excel files (December "mature" and January "first look") and submitted as attachments to the report.

Appendix I: Calculation of Contempt Fines

This appendix are included as an excel file and submitted with the Final report.

Appendix K: Good Cause Exceptions

This appendix is included as an excel file and submitted with the Final report.

Over the past four months, there have been sixteen (16) Good Cause exception requests submitted to the court, averaging four (4) cases a month. There were fifteen (15) requests submitted due to Attorney delay and one (1) request submitted due to interpreter delay. In the month of January, there were two (2) Good Cause exception requests submitted to the court. For the two cases for which a Good Cause exception was submitted in January, the average number of days from court order signed date to evaluator assignment was 11.5 days, and the average number of days from discovery received date to evaluator assignment was 9 days. Additionally, the average number of days from evaluator assignment to first contact with attorney was 0 days. For the Good Cause exception requests submitted in January, the response from the court was not received and unknown.
