BACKGROUND

On April 2, 2015, the Court ordered the Department of Social and Health Services (DSHS) to file monthly reports with the *Trueblood* Court Monitor on efforts to comply with Court orders to provide timely competency evaluation and restoration services to Class Members. This monthly report is submitted April 13, 2018 and covers the events of March, 2018. This report also provides status updates on additional court order requirements.

On April 2, 2015, the Court ordered:

“Defendants shall file a report with the Monitor on the fifth day of every month, which shall include:

- (1) the number of days between when a court ordered provision of competency services and when provision was completed, for each person ordered to receive competency services during the previous month;*
- (2) data regarding the number of evaluators, bed capacity, physicians, and other resources needed to provide timely competency services;*
- (3) the steps taken in the previous months to implement this order;*
- (4) when and what results are intended to be realized by each of these steps;*
- (5) the results realized in the previous month;*
- (6) the steps planned to be taken in the following month;*
- (7) certification by Defendants that they are fully compliant with all deadlines that became due in the previous month;*
- (8) Defendants’ estimate for when the wait times will reach seven days or less, and all data relied on in making that estimate; and*
- (9) any other information the Monitor informs Defendants is necessary for the Monitor to fully review Defendants’ actions and advise the Court.”*

The April, 2015 order was modified on February 8, 2016. Additional orders were issued on July 7, 2016, August 15, 2016, and April 26, 2017. Status updates on these orders requiring narrative in this report begin on page 38.

This report provides the Class Member data for competency services displayed in two periods; February 1, 2018 – February 28, 2018 and March 1, 2018 – March 31, 2018. The February data are considered “mature” and the March data are a “first look” data set. April, 2015 is the baseline month for data analysis.

Specific Class Member evaluation and restoration information is included in the appendices to this report.

CLASS MEMBER STATUS SUMMARY INFORMATION

Analysis of Mature Data: April 1, 2015 through February 28, 2018 (see appendix A-G)

Note: These data are based on number of days from signature and not the new timeframes as described in the April 26, 2017 Court Order.

The average monthly referrals for each type of service are as follows:

- Average monthly jail-based evaluation orders signed for April 2015-February 2018
 - WSH: 215.9
 - ESH: 50.9
 - Both hospitals: 266.8
- Average monthly inpatient evaluation orders signed for April 2015-February 2018
 - WSH: 18.3
 - ESH: 7.3
 - Both hospitals: 25.6
- Average monthly restoration orders signed for April 2015-February 2018
 - WSH: 82.4
 - ESH: 14.3
 - Both hospitals: 96.7

Summary Points Related to Orders and Timeliness Based on Mature February Data (A-G appendix)

Orders:

- The number of jail-based evaluation orders at WSH rose to 235 in January from 227 the previous month, which is well above the 215.9 average, and is significantly higher than the year-over-year number. ESH saw a decrease to 63 orders from 73 the previous month, which is still well above the 50.9 average. Combined, the hospitals received 298 orders in February, which is well above the 266.8 average.
- WSH received 6 inpatient evaluation orders which is well below the 18.3 average. ESH had 5 inpatient evaluation orders, which is also lower than the 7.3 average. Orders at both sites totaled 11 which is well below the 25.6 average.
- WSH received 100 restoration orders which is well above the 82.4 average. ESH had 19 orders which is also above the 14.3 average. There were 119 restoration orders across both hospitals which is well above the 96.7 average.

Wait Times:

- Regarding jail-based 14 day evaluation completion times, WSH is at 8.9 days on average from order to completion and ESH is averaging 10.9 days. The combined average is 9.3 days.
- The average inpatient evaluation admission wait times at WSH is 55.2 days. ESH average is at 8.0 days. The combined average is 44.1 days.
- Restoration admission wait times at WSH is 47.3 days on average. The ESH average is 9.4 days. The combined average is 41.2 days.

Timeliness:

- At both hospitals combined, overall timeliness for jail-based evaluation completion is at a 72% completion rate within 14 days from receipt of order.
- At both hospitals combined, overall timeliness for inpatient evaluation admissions is at an 8% completion rate within 7 days from receipt of order.
- At both hospitals combined, overall timeliness for inpatient restoration admissions is at a 9% completion rate within 7 days.

Outlier Cases (Mature)

The monthly outlier population cases have been defined by the court monitor as:
 * Population from the mature data month.
 * Evaluations: incomplete status and waiting more than 20 days for an evaluation (In-Jail or Inpatient), by the end of the reporting period.
 * Restorations: incomplete status and waiting more than 40 days for restoration services (Inpatient), by the end of the reporting period.
 * Wait times for Inpatient services are measured from order to admission, not completion of the evaluation or restoration services.

| Type | Number of referrals: | Minimum Number of days between order signed and end of reporting period | Maximum Number of days between order signed and end of reporting period |
|---------------------------------------|----------------------|---|---|
| In-Jail Evaluations: | 1 | 21 | 21 |
| Inpatient Evaluations: | 13 | 29 | 70 |
| Inpatient Restorations (Misdemeanor): | 8 | 42 | 135 |
| Inpatient Restorations (Felony): | 49 | 42 | 118 |

TABLE 4a-4c. Summary of jail evaluations, in-patient evaluations, and restorations by month since February, 2016. **NOTE: These data (percent days or less) are based on the month that the court order was signed and will therefore be different from the data shown in Tables 1-3, which is based on the month the order packet was completed. March numbers are first look, and percentages may change as many cases (those with orders at the end of the month) will close within the seven or fourteen day window.**

RESOURCES REQUIRED TO PROVIDE TIMELY COMPETENCY SERVICES

Funding and Resources

The Washington State Legislature convened one regular and three consecutive special sessions between January 9, 2017 and July 20, 2017. The Legislature passed a 2017-19 operating budget in Substitute Senate Bill 5883 (SSB 5883) on June 30, 2017. Section 204 (2)(e) of the bill references \$25,053,000 in Fiscal Year 2018 (July 1, 2017 to June 30, 2018) and \$25,847,000 in Fiscal Year 2019 (July 1, 2018 to June 30, 2019) for implementation of efforts to improve the timeliness of competency restoration services pursuant to Chapter 5, Laws of 2015 (SSB 5889). The budget provides funding to operate an additional thirty bed forensic ward in Fiscal Year 2019 (July 1, 2018 to June 30, 2019), assuming the closure of one thirty bed civil ward and subsequent conversion to a forensic unit. The Aging and Long Term Services Administration, the Developmental Disabilities Administration, and Western State Hospital are already collaborating on targeted efforts to successfully discharge patients into the community to reduce the population of one civil ward by thirty patients, as contemplated by the Legislature. The Legislature also funded a twenty-four bed expansion at Yakima Residential Treatment Facility. The Department intended to move forward with this expansion to provide relief to class members. However, on November 1, 2017, Plaintiffs and the Department submitted a proposal to the court that would transition the operations planned for Yakima expansion to Building 27 at WSH. On November 21, 2017, at a status hearing in the Federal District Court, the Department with the Governor's office reiterated the plan to shift the expansion money from Yakima to Building 27 at WSH for operations if the court would release fine money to pay for the capital improvements. On January 25, 2018, Judge Pechman heard a motion to use contempt fine funds for the remodel of Building 27 and agreed, in principal, once a few minor changes were made to the plan. Therefore, in the FY 2018 Operating Supplemental Budget, the additional funds that were earmarked for the twenty-four bed expansion at the Yakima Residential Treatment Facility were removed.

The FY 2018 Supplemental Capital Budget, passed on January 19, 2018, includes \$2,800,000 for renovation of Eastern State Hospital 1N3 to provide twenty-five beds to serve class members and \$1,560,000 for renovation of Western State Hospital Building 29 to support additional forensic wards. However, the FY 2018 Budget did not include funding for the construction of two new thirty-bed forensic wards at Western State Hospital as originally requested.

Need Projections and Bed Capacity

During the June, 2017 *Trueblood* Status Hearing, Judge Pechman directed Dr. Danna Mauch to hire a contractor to conduct a Competency Services Bed Need Study to illustrate patient demand and bed need, and ultimately to determine the feasibility of, and timeframe for, compliance with Court orders. The impact of community based competency evaluation on the demand for inpatient CE/CR beds will also be measured.

The TriWest Group was selected as the contractor to complete this work within a 60-90 day timeframe. On October 13, 2017 TriWest requested and received aggregate level referral data from DSHS. DSHS provided TriWest the daily aggregate data on November 28, 2017 and sought status update regarding the IRB application as client-level data cannot be provided without the IRB approval. TriWest informed DSHS that they received word of conditional approval by the IRB on November 30, 2017. On February 1, 2018, TriWest informed DSHS that the WSIRB acknowledged receipt of their response to conditional approval and revised application. A data sharing meeting took place on February 12, 2018 during which TriWest presented the preliminary results of the analyses conducted thus far. DSHS provided additional county-level aggregate data to TriWest following the February 12 presentation. TriWest incorporated the additional data in the analysis and provided DSHS an updated presentation on February 26, 2018. DSHS reviewed the presentation and

provided feedback on April 4, 2018. On April 9, 2018, TriWest provided DSHS a signed copy of the IRB approval that would allow DSHS to share client-level data for the study. DSHS is updating the data that was prepared for TriWest in November of 2017 and is waiting for the IRB approval to include more recent data through February, 2018. The updated data will be sent to TriWest in April, 2018.

TRUEBLOOD KEY ACCOMPLISHMENTS – MARCH 2018

RECRUITMENT:

- Talent Acquisition staff at DSHS Headquarters continue to recruit for all positions at Western State Hospital (WSH) including those for SIA projects. Final numbers of staff and data associated with placement is controlled by HR operations staff at WSH.
- Recruitment for additional forensic evaluators and a supervisor at the Office of Forensic Mental Health Services continues. Applications for both Evaluator positions have been given to Dr. Kinlen and his team.
- A recruitment team has been established by the Talent Acquisition Team at DSHS HQ to support personnel needs associated with the Building 27 project at WSH.
- Nine candidates will be interviewed in April for the Competency Restoration Specialist position.
- Four candidates will be interviewed in April for the Trueblood settlement Project Manager position.

REQUESTS FOR INFORMATION (RFI) RELEASES

- Two Request for Information releases were completed during the months of February and August, 2017. Additionally, the plaintiffs provided a list of prospective interested individuals to conduct Competency to Stand Trial evaluations as possible contractors in the November 21, 2017 status hearing. The Department is reaching out to the names provided by the plaintiffs in gathering information about logistical and financial needs to complete such evaluations. Contact was started in November and was completed in December 2017. A total of thirty-one potential contractors were contacted with 17 agreeing to speak with the Director of OFMHS. Data was shared in the status hearing on January 25, 2018 and the Court Monitor provided the recommendation of completing a third Request for Information with modifications to the deadline requirements and target individuals who responded positively during the outreach to apply. The third RFI was drafted and sent to the court monitor, the Plaintiff attorneys, and the Attorney General's Office for review and comment. A final draft was completed and on February 28th, the third Request for Information was completed and distributed. For the month of March, the Department is awaiting responses for interested individuals and by the end of March, five responses were received. The RFI is open until April 30th to receive responses.

JULY 7, 2016 CONTEMPT ORDER STATUS UPDATES

The three status updates required in the July 7, 2016 Court Order are below.

1. Monetary sanctions – fines are imposed on a per class member, per day basis. On the 15th of every month, DSHS is required to submit contempt fines data to the court. These data will be submitted to the court on August 15, 2016 and will be included in this report when finalized as Appendices M and N.
2. Diversion plans – DSHS is ordered to develop, in consultation with the Court Monitor, plans for the expenditure of the contempt fines.
3. Wait time data – DSHS shall submit to the Court wait time data in a manner identical to the data submitted on June 17, 2016 in the declaration of Bryan Zolnikov. These data are included in this report in Table 4.

AUGUST 15, 2016 ORDER MODIFYING PERMANENT INJUNCTION AS TO IN JAIL COMPETENCY EVALUATIONS

Pursuant to the August 15, 2016 court order, DSHS must provide in-jail competency evaluations within 14 days of a signed court order. When an in-jail evaluation cannot be completed within 14 days and good cause applies (i.e., delay due to clinical reasons, attorney, interpreter, or defense expert), an extension from the ordering court must be secured or DSHS must immediately admit the individual to a state hospital to finish conducting the evaluation. In order to comply with the reporting requirements of the Court's order, DSHS identified a need to revise both the current process used for seeking extensions from the criminal court, as well as the data collected during that process. Since the August 15th court order, DSHS identified a series of necessary changes that will enable DSHS to comply with the order, to include the following:

1. Develop a list of data elements needed to comply with the court order to include additional delay data;
2. Develop a data dictionary to define the data elements needed;
3. Develop a process of reporting the information to the courts for the exception requests;
4. Identify the cutoff date for seeking an exception;
5. Develop a standardized form that can be used for seeking good cause exceptions;
6. Develop an operating procedure to guide evaluators through the new good cause process;
7. Coordinate with the Attorney General's Office to ensure adequate representation;
8. Develop a process for collecting the data to report to the courts for the exceptions and to maintain for monthly reporting;
9. Develop a model for the delays and the data pertaining to the delays;
10. Modify the current IT systems or develop a new database in which to maintain the information once all above steps are completed.

To date, DSHS has completed identification of the data elements, developed a process for the evaluators to collect the data that will be entered and reported to the courts, and developed the data dictionary. The process of reporting the information to the courts and identifying a cutoff date for seeking an extension, and the standardized forms, operating procedure, and coordination for Assistant Attorney General (AAG) representation have been completed. Interim steps for maintaining the data for monthly reporting were identified and implemented while the current IT system is modified.

Through use of the interim solution, DSHS is collecting data on use of the good cause exception. The data required to be reported can be found in Appendix O in the final report. The IT system has been modified to include fields for data on the use of the good cause data exception and is currently going through testing. The Forensic Advisory Committee (FAC) is a regularly scheduled (twice a month) committee that provides business process clarification / recommendations to the technical team as the system is being built. FAC is a recurring meeting that is meeting with regularity.
