ADSA Web Access – County Training

Aging & Long-Term Services Administration
Training Services
Revised 2024

Table of Contents

Overview

The **ADSA** (Aging & Disability Services Administration) **Web Access** is a system designed to support County services for the Developmental Disabilities Administration (DDA) clients. *Please note that ADSA is now known as ALTSA (Aging and Long-Term Administration).*

ADSA Web Access (AWA):

- Offers a consistent and reliable interaction for Counties statewide.
- Provides a County connection to specific areas of CARE (Comprehensive Assessment Reporting & Evaluation) Web application.
- Collects more information from Providers to monitor quality.
- Automates the billing and service authorization processes.
- Connects to ProviderOne for payment. ProviderOne is a modern and efficient payment system that provides timely payment, reduces payment errors and fraud, and maximizes federal matching dollars.

About this Workbook:

This workbook provides exercises to get you up and running quickly on AWA. The exercises are self-paced and designed to first tell you about a course of action, and then give you an opportunity to try it, step-by-step.

Help:

Please direct all questions about the AWA system to the ALTSA Help Desk at:
  - Statewide: 1-800-818-4024
  - E-mail: altsaddahqhelpdesk@dshs.wa.gov

When you contact the ALTSA Help Desk you will receive a response within 24 hours and will be given a tracking number. All contacts will be tracked in a database to ensure a resolution is established.

Please see the ***Login – Security*** information on page 6 of this manual for additional information about logging in for the first time.

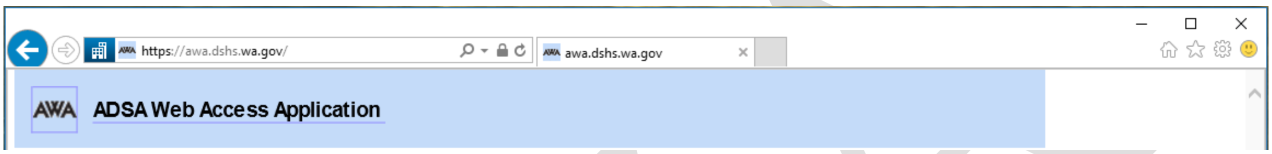
Get Started

Web Browser – Get Around – Quick Review

Launch the browser:
Launch your web browser as you normally do.

Menus and Links:

For Internet Explorer 11 or Firefox:



Navigation Buttons:

- The "Home" button returns you to the main page – all browsers
- The "Back" button returns you to the previous page(s) – all browsers.

Launch ADSA Web Access:

Enter the ADSA Web Access address: https://awa.dshs.wa.gov/

Tip if you have problems viewing information – CMIS screens are getting cut off - you can always change your view through a couple of quick keyboard combinations:

- **Hold CTRL and press +** to increase text size – all browsers
- **Hold CTRL and press -** to decrease text size – all browsers

Please turn to the next page for information on how to login.

Login

The ADSA Web Access is a site on the web where many users can access data. There are several other groups besides Counties who need limited access to client data. Some of these people will use the same ADSA Web Access; however, their security group will only allow access to the specific site they need.

Prior to Login you need to obtain you Username and Password thru the ALTSA Helpdesk (see page 4 for contact information).

1. Please *type* in your username.

2. *Enter* the Password and select *AWA County* for the domain and *click* Login.

3. *Pull down* the County menu and *see* your County(s).

4. *Click* Continue. The Work List will be displayed.

5. Notice the upper right corner of the screen. You will see your Username and the County where you are logged in. You will also see a Help link.

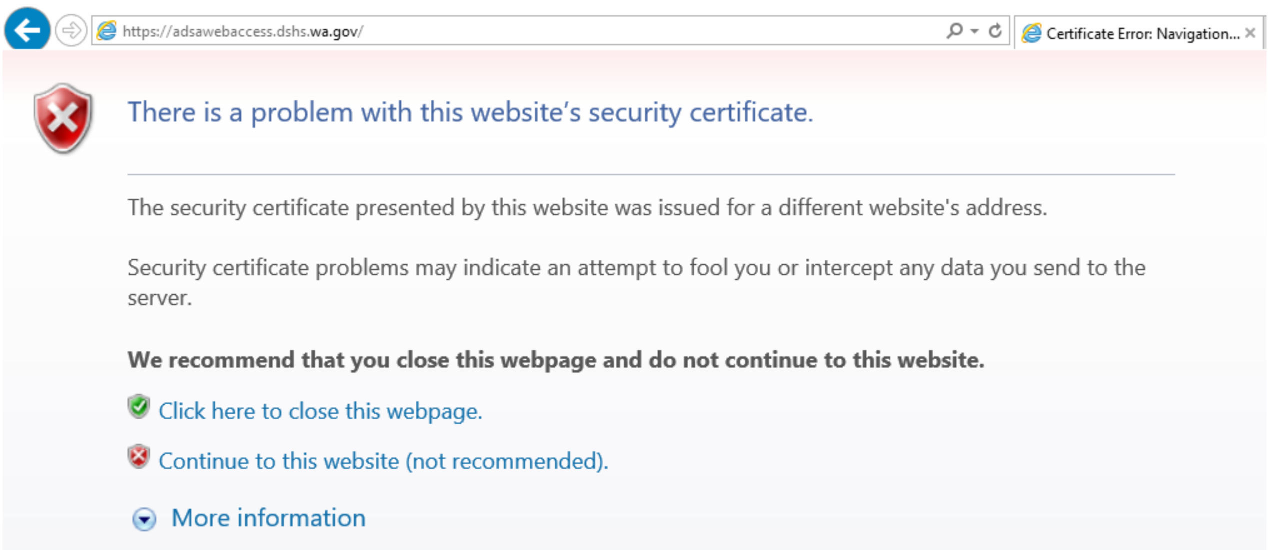
6. *Click* the Help link and explore it now. (Close when you are finished.)

Please turn to the next page for information on login security.

Login - Security

We've implemented SSL (Secure Sockets Layer) to the ADSA Web Access. This will make the web site more secure by preventing others from gaining access to sensitive private information. Internet Explorer needs to be configured for the ADSA Web Access so that the SSL will work smoothly.

Internet Explorer 11:
When you first go to the website, you will see the following dialogue box:



You see this error message because IE 11 has a detection system that checks to see if a website's security certificate is signed by a valid third-party organization. IE 11 does not understand that we (like many small organizations that exist today) sign our own security certificate.

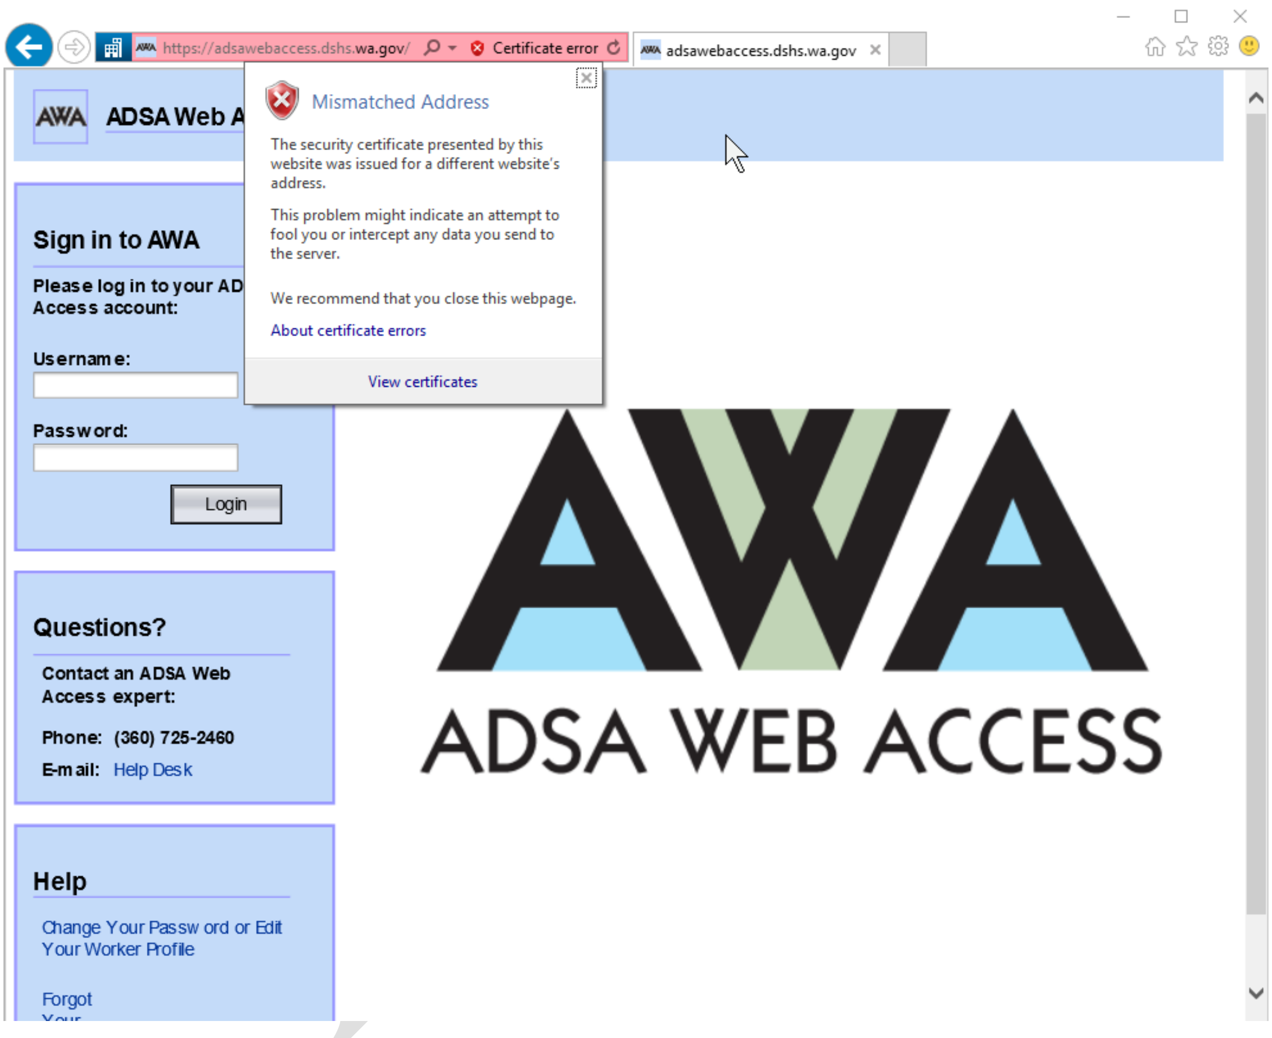
You will have to specifically tell IE 11 that ADSA Web Access is a trusted site.

Please turn to the next page for more information on login security.

Login – Security continued

1. To resolve this, *click* “Continue to this website (not recommended)”.

2. When ADSA Web Access is displayed, *click* on the box with the words “Certificate Error”; it should have a red shield with an **X** next to it. A pop-up will appear:



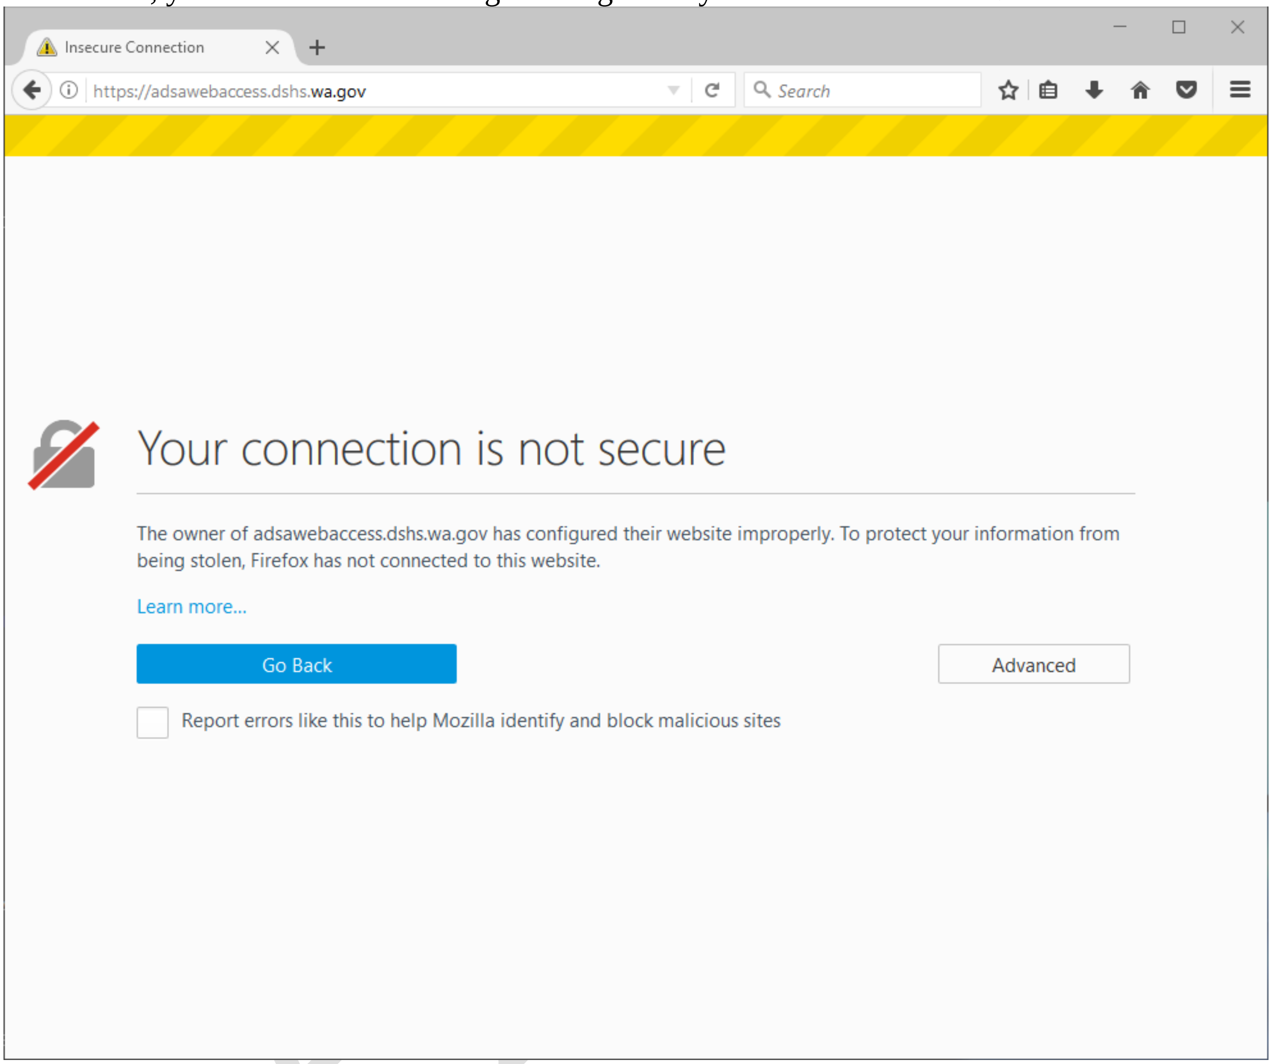
3. *Click* View Certificates; the Certificate will appear.

4. *Click* the “Install Certificate” button, and *follow the Wizard* to install the certificate.

Please turn to the next page for more information on login security.

Login – Security continued

Firefox:
For Firefox, you will see the following warning when you first access the site:



1. *Click* the Advanced button.
2. *Click* the Add Exception… button that appears below.
3. *Click* the Confirm Security Exception button in the resulting dialog box to complete importing the certificate.

If you are using a different browser and you have questions, please contact your IT support person, or contact the ALTSA IT Helpdesk.

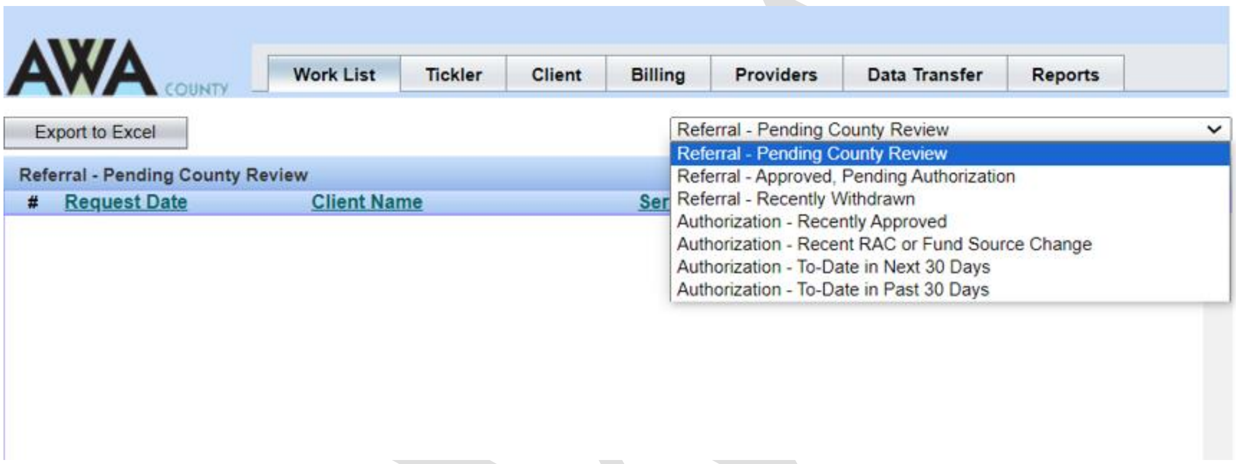
Please turn to the next page for an overview of the Work List.

Work List – Get Started

Overview

The Work List displays notices and current activities about the status of referrals and authorizations. The Work List is dynamic and changes daily as work is performed.

The initial information in the Work List comes directly from client information entered into CARE (Comprehensive Assessment Reporting & Evaluation) Web by the DDA Case Manager.



The Work List provides a method to manage the review/approval processes flow.

Look at the items in the Work List:

1. *Pull down* the menu and *select* each choice to see the different lists.
   Choices include:
   a. Referral – Pending County Review
   b. Referral – Approved, Pending Authorization
   c. Referral – Recently Withdrawn
   d. Authorization – Recently Approved
   e. Authorization – Recent RAC or Fund Source Change
   f. Authorization – To-Date in Next 30 Days
   g. Authorization – To-Date in Past 30 Days

2. *Return* to "Referral – Pending County Review" when you are finished.

To Sort any list:

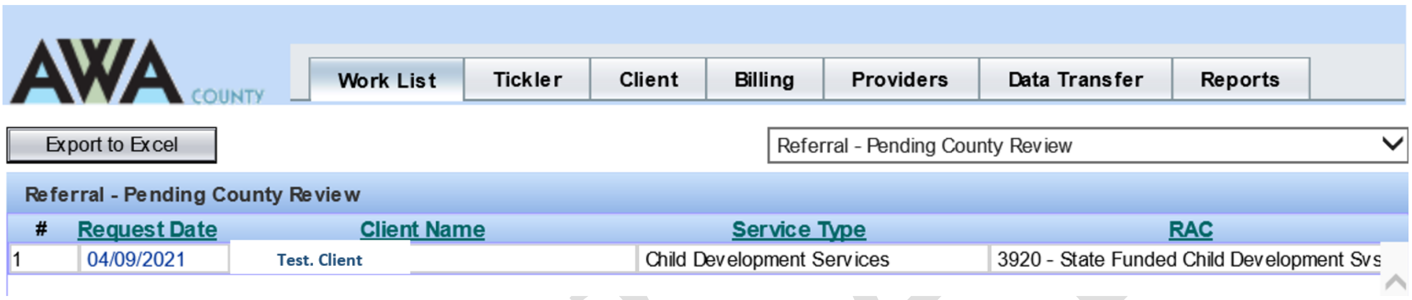
3. *Click* a column header and the list will sort by that column. (Click again and the sort will go in the opposite order.)

Turn to the next page to practice navigating through the Referrals – Pending County Review.

Work List

Referral – Pending County Review

The DDA Case Manager will enter County referrals into CARE Web. When the Case Manager completes the information and marks the status as "Pending County Response" a notice is added to the AWA Work List.



The Service County will deny or approve the referral. When the County finalizes the referral, the DDA Case Manager and County will receive a "Tickler" that the referral is now an authorization.

If you click on a Request Date or Client Name, a screen detailing the County Service Referral Request will be displayed.

Try it:

1. *Click* on a client's request date or name.

   The Referral Request detail screen will be displayed. ***(We will work with this screen next!)*** Note: Once you are looking at a client's record, you have exited the Work List.

2. *Click* the Work List tab to return to the Work List.
   Note: You have now exited the Referral Request and are back on the Work List.

3. Let's look at a client – choose a client from "Referral – Pending County Review."

Turn to the next page for information about the Referral Request detail screen.

Referral Request Detail Screen Overview

The Referral Request detail screen is divided into three (3) sections. The top section **"County Service Referral"** is populated from the CARE Web application that the DDA Case Manager completes and *is view only*.

When you view the Referral Request detail screen you will see <u>links</u> to the client's information screens (Left column. We will explore these screens later).
The Resident County Response section is auto populated with information about the client's residence. **This is informational only.**

You can print this document to use as a planning tool when you are talking with the Provider. *Click* the **Print** button at the bottom of the screen–a PDF document will open. (Close when you are finished.)

Turn to the next page to learn how to finalize the client's referral request.

Finalize the Referral Request

Sample scenario:

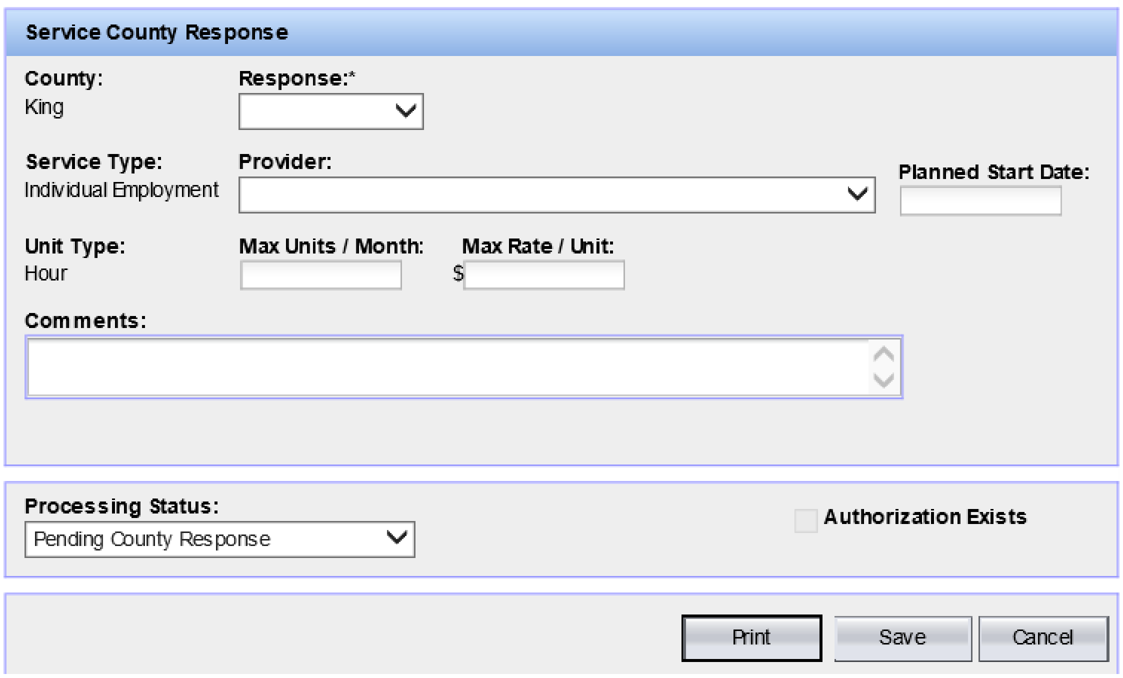
Our client is a 21-year-old student. The client recently graduated from school and is transitioning to adult services with a new job. The client has been referred to an Individual Employment Provider. The Individual Employment Provider will be supporting this client 16 hours/month.

1. You should be viewing your client's Referral Request detail screen.

2. *Scroll down* to the Service County Response section.

3. *Enter* the information into the fields. TIP: You can click into the next field or press the [Tab] key to jump to the next field.

4. If you enter the "Response" first, you will see that some items turn red and you will receive a "System Message" about required fields. All required fields must be completed before the response is finalized.



5. Enter the "Planned Start" date, it cannot be earlier than the "Tentative Start Date" provided by the Case Manager.

6. The Unit Type will auto populate based on the selected Service Type.

Turn to the next page to continue an overview on finalizing the client's referral request.

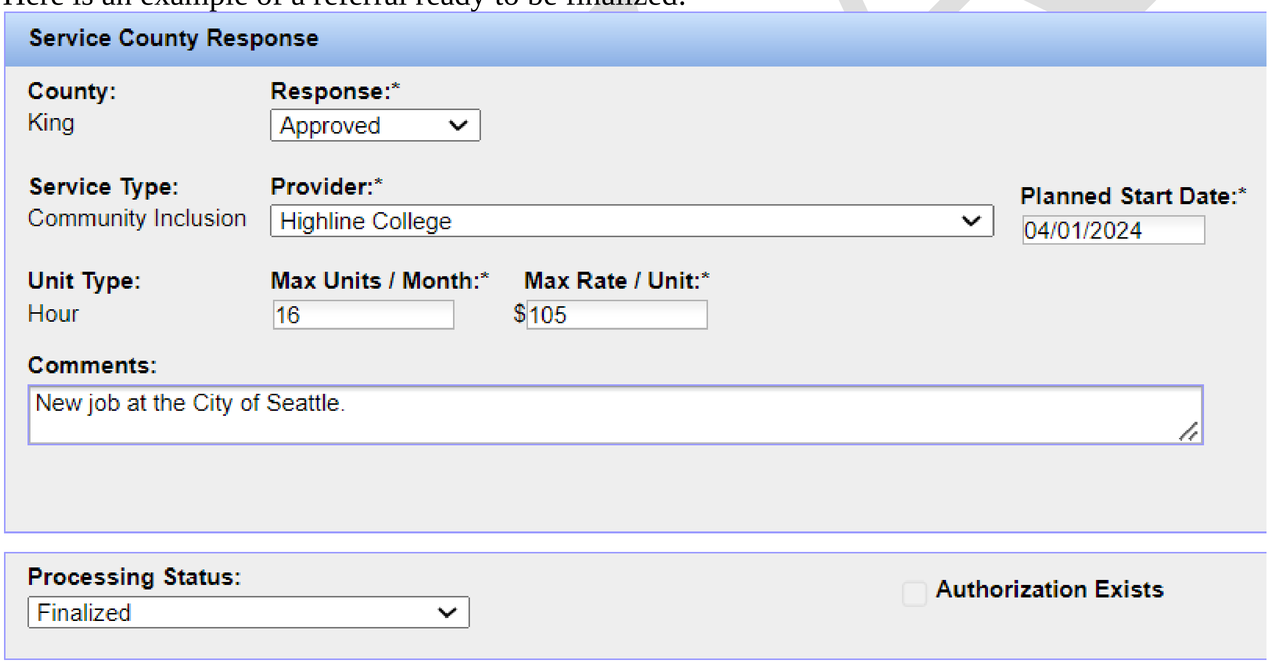
7. Confirm the Case Manager's chosen Provider by selecting the same one.
Note: If you know something about this provider, like they are at capacity, reject the referral and make a comment to the Case Manager. If you notice any errors, reject the referral and make a comment to the Case Manager.

8. Enter the Maximum units in a month or "Max Units/Month". This represents the service hours a client can expect to receive from the service provider in a month.

9. Enter the Maximum unit rate or "Max Rate/Unit". This should be consistent with your County's Rate / Fee Schedule and is connected to the "Unit Type" chosen.

10. Make sure to choose "**Approved**" for the Response and "**Finalized**" for the Processing Status. The request can now be processed.

Here is an example of a referral ready to be finalized:



Service County Response

County: King

Response:* Approved

Service Type: Community Inclusion

Provider:* Highline College

Planned Start Date:* 04/01/2024

Unit Type: Hour

Max Units / Month:* 16

Max Rate / Unit:* $105

Comments:
New job at the City of Seattle.

Processing Status: Finalized

Authorization Exists

When the Service County changes the Processing Status to "Finalized" the client's DDA Primary Case Manager will be notified the next day.

NOTE: The "Planned Start Date" will be the default "From Date" on the Service Authorization.

Turn to the next page to continue an overview on finalizing the client's referral request.

Save the Referral Request

The Cancel button is like an "undo" button. It will cancel all the entries.

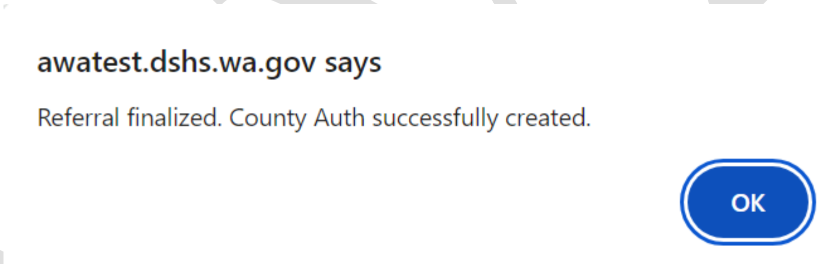
- If the screen is view only, the "Existing Authorization" box will be checked. This means that the request was previously finalized and an authorization already created.
- If DDA has withdrawn the request, the "Processing Status" field will display "Withdrawn" and the screen will be view only.

Click the Save button.

You will be returned to the Work List.

- Once you have finalized and saved the referral request, it will be dropped from the "Referral – Pending County Review" Work List. ***(Look at this Work List to see.)***

- The County Authorization will automatically create in CARE and AWA when the AWA user finalizes the referral. The AWA user will receive the following message when the authorization is created:



- The AWA user will receive the following tickler if the authorization is not successfully created:
  "Provider: XXX, Service: XXX; A County Service Authorization could not be system created due to a validation error. Please contact the DDA Case Manager for more information"

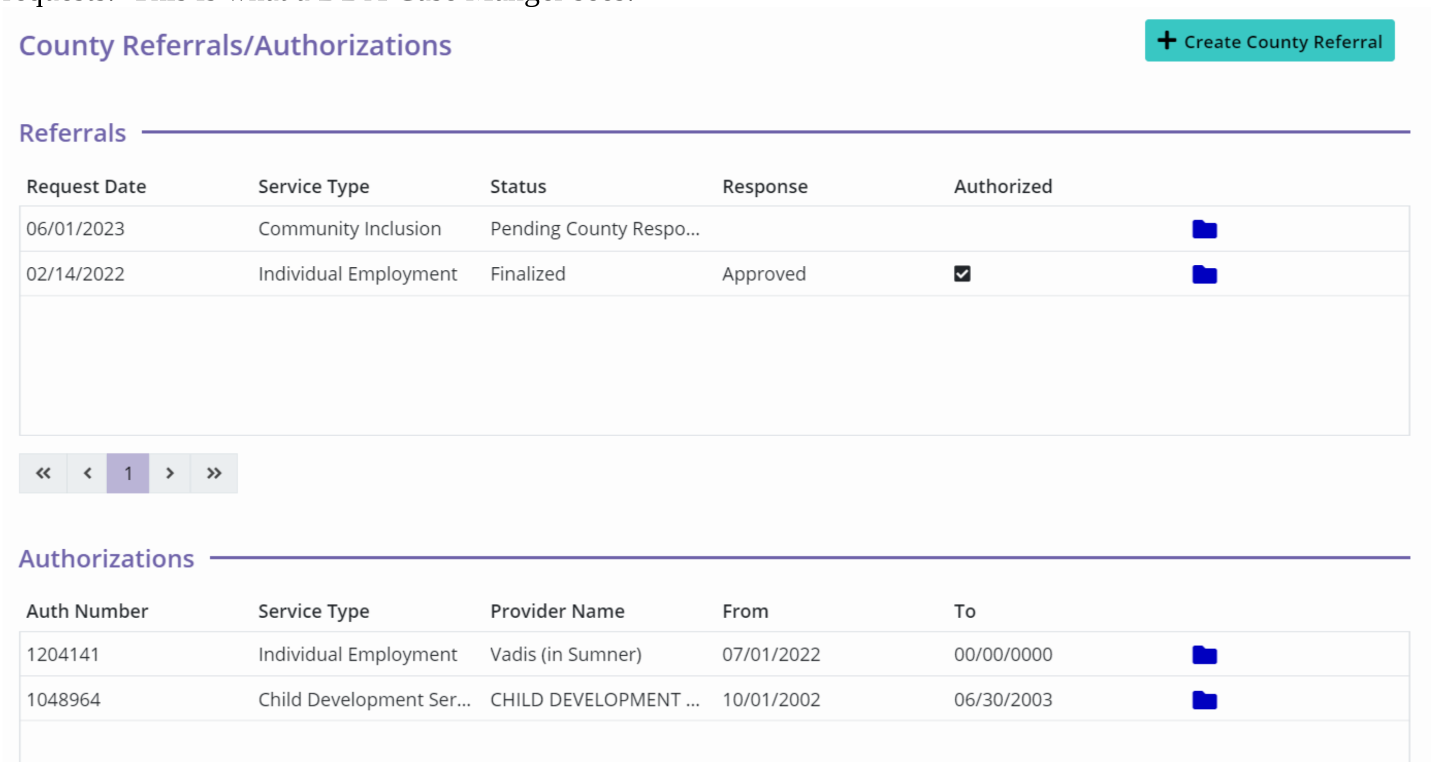
- When the request is successfully completed it will be added to the "Referral – Approved, Pending Authorization" worklist.

Turn the page to see what a case manager views in the CARE for Referrals / Authorizations.

Work List

DDA Case Manager Client Referral / Authorization Screen

DDA Case Managers use this County Referrals/Authorizations screen in CARE to process referral requests. This is what a DDA Case Manger sees:



Turn to the next page to look at the Referral – Approved, Pending Authorization.

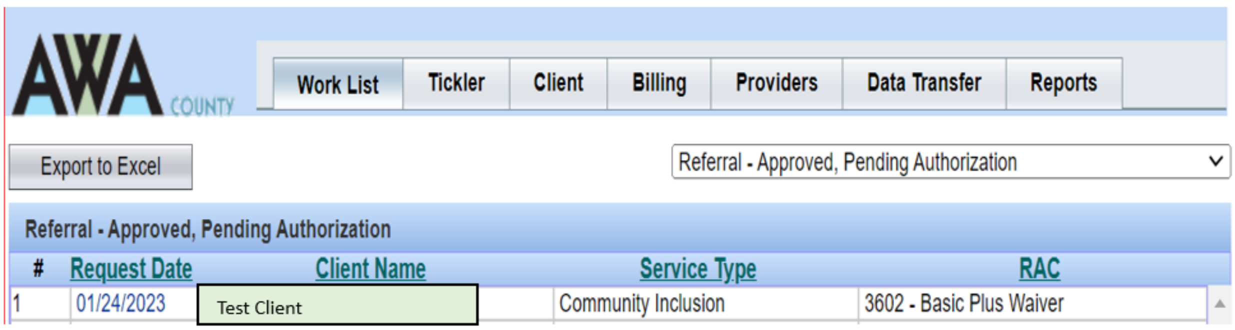
Work List

Referral – Approved Pending Authorization

"Approved, Pending Authorizations" are referrals that have been automatically created in CARE/AWA and are in finalized status. When you finalize a referral request, an authorization is automatically created in CARE/AWA and the DDA Case Manager will receive a tickler. DDA Case Managers have five (5) business days to contact the county if they have any questions or concerns about the County Service Authorization.

1. *Click* the Work List tab.

2. *Pull down* the Work List menu; *choose* "Referral – Approved, Pending Authorization".

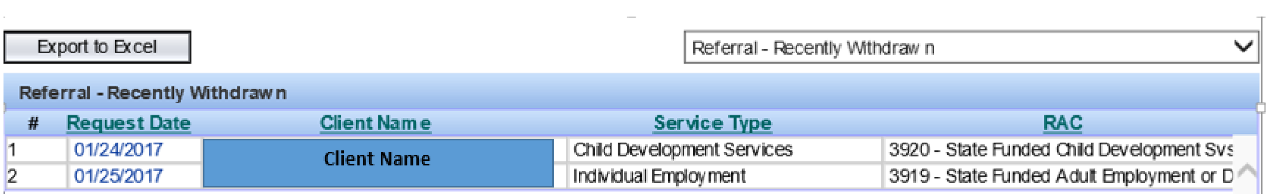


NOTE: Clicking client's name or request date will return you to the Referral Request detail screen. (Click the Back button on your browser to return to your place in the Work List.)

Referral – Recently Withdrawn

If DDA withdraws the referral, the request will be removed from the Approved, Pending Authorization list and placed on the "Referral – Recently Withdrawn" list. Referrals on this list have a status of "withdrawn" within the last thirty (30) days. Clients will remain on this list for thirty (30) days. They will be removed from this list after that time.

1. *Pull down* the Work List menu; *choose* "Referral – Recently Withdrawn".



Turn to the next page to look at the Authorization – Recently Approved.

Work List

Authorization – Recently Approved

Once the County Service Authorization has been created in CARE/AWA it will be placed on the “Authorization – Recently Approved” list. *Recently Approved* authorizations are those created within the last thirty (30) days. Clients will remain on this list for thirty (30) days. They will be removed from this list after that time.

1. *Return* to the Work List; *choose* “Authorization – Recently Approved”.

   Note: the number in the “Auth Number” column is a link.

2. *Click* the “Auth Number” to go to the County Service Authorization detail screen: *This screen is view only.*

NOTE: As of July 2023, County Service Authorizations no longer have a “To Date” when they are in “Open” status, except for child development services. The “To Date” for child development services will auto populate with the date one day prior to the client’s 3rd birthdate. A “To Date” is added to all other County Service Authorizations when they are moved to “Closed” status.

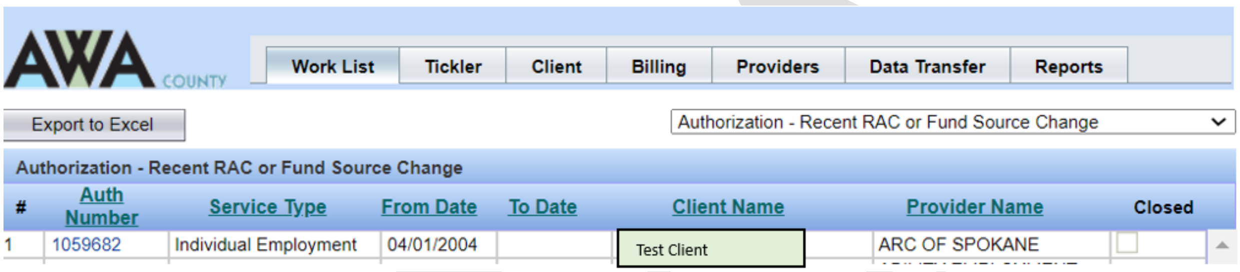
Turn to the next page to view the Authorization – Recent Funding Source Change list.

Work List

Authorization – Recent Recipient Aid Category (RAC) or Fund Source Change

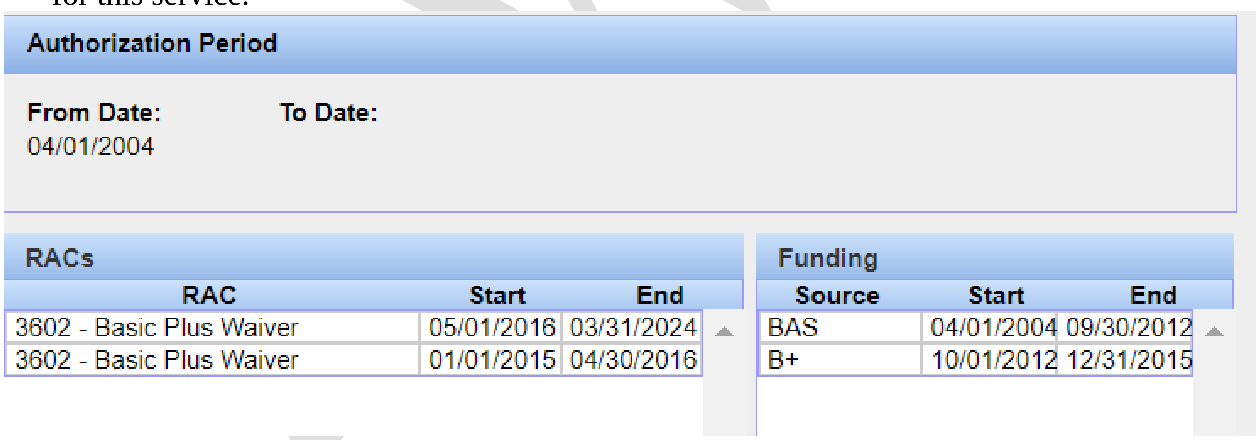
“Recent RAC or Fund Source Change” records are authorizations with a second or subsequent **RAC Start Date** within the last thirty (30) days. The dates are recorded in the RACs table. Clients will remain on this list for thirty (30) days. They will be removed from this list after that time.

1. *Return* to the Work List; *choose* “Authorization – Recent RAC or Fund Source Change”.



Click the authorization number to go to the same Service Authorization detail screen.

The **RAC** table displays funding history and shows the start date for each funding source for this service.



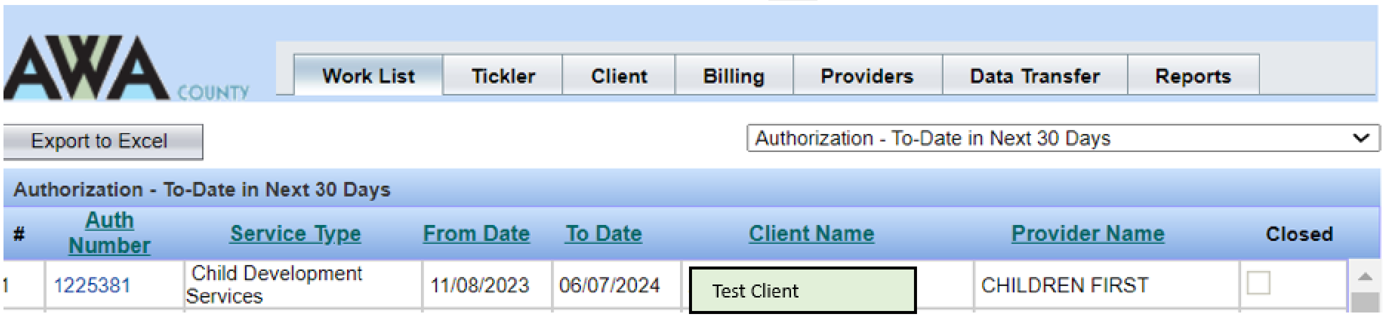
Turn to the next page to view the “Authorization – To Date in Next 30 Days” Work List.

Work List

Authorization – To Date in Next 30 Days

The “To Date in Next 30 Days” screen lists authorizations with a “To Date” (end date) within the next thirty (30) days. Clients will remain on this list for thirty (30) days. Within 30 days you must renew the authorization or it will be removed from this list and go to the “To Date in Past 30 Days”.

1. *Return* to the Work List; *choose* “Authorization – To Date in Next 30 Days”.



NOTE: Clicking the authorization number will take you to the same Service Authorization detail screen.

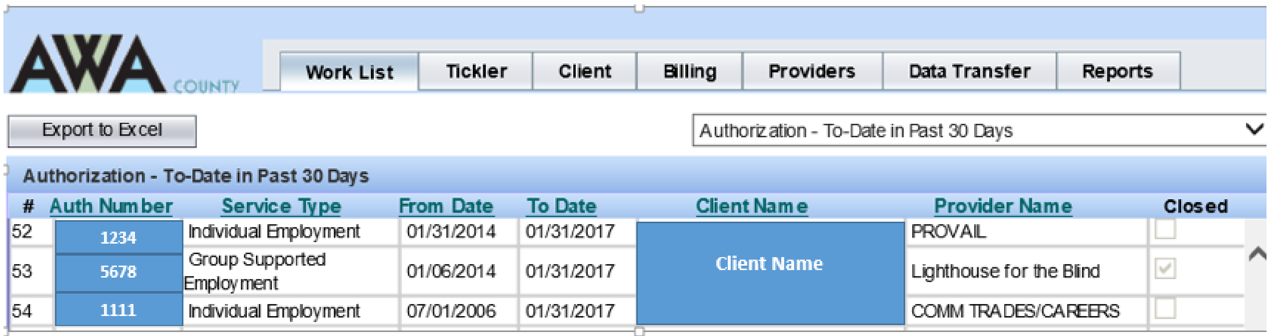
Turn to the next page to look at the Authorization – To Date in Past 30 Days.

Work List

Authorization – To Date in Past 30 Days

Authorizations with a “To Date” within the last thirty (30) days will be listed. Clients will remain on this list for thirty (30) days. They will be removed from this list after that time.

1. *Return* to the Work List; *choose* “Authorization To Date in Past 30 Days”.



Note: the “To Date” means --- do not pay after this date!

You have finished with the Work Lists.

Turn to the next page to practice searching for a client.

Client

Continue with Indirect Monthly Costs on the next page.

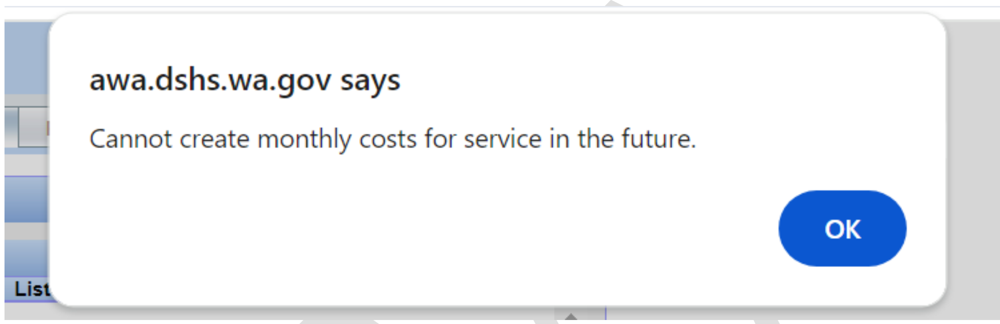
Delete:

1. *Click* the Delete link for a service month.
2. *Click* "Yes" when asked if you are sure.

Your billing month will be deleted. We will talk about the Post function later – since it is the last step in the process.

Guidelines for Other Monthly Costs:

- Service Month cannot be in the future.



- Other Monthly Costs that were reported in error (or not previously reported) can be entered here for a prior service month that has already been billed to DDA.
- Multiple Service Months may be included in the current Billing Month.

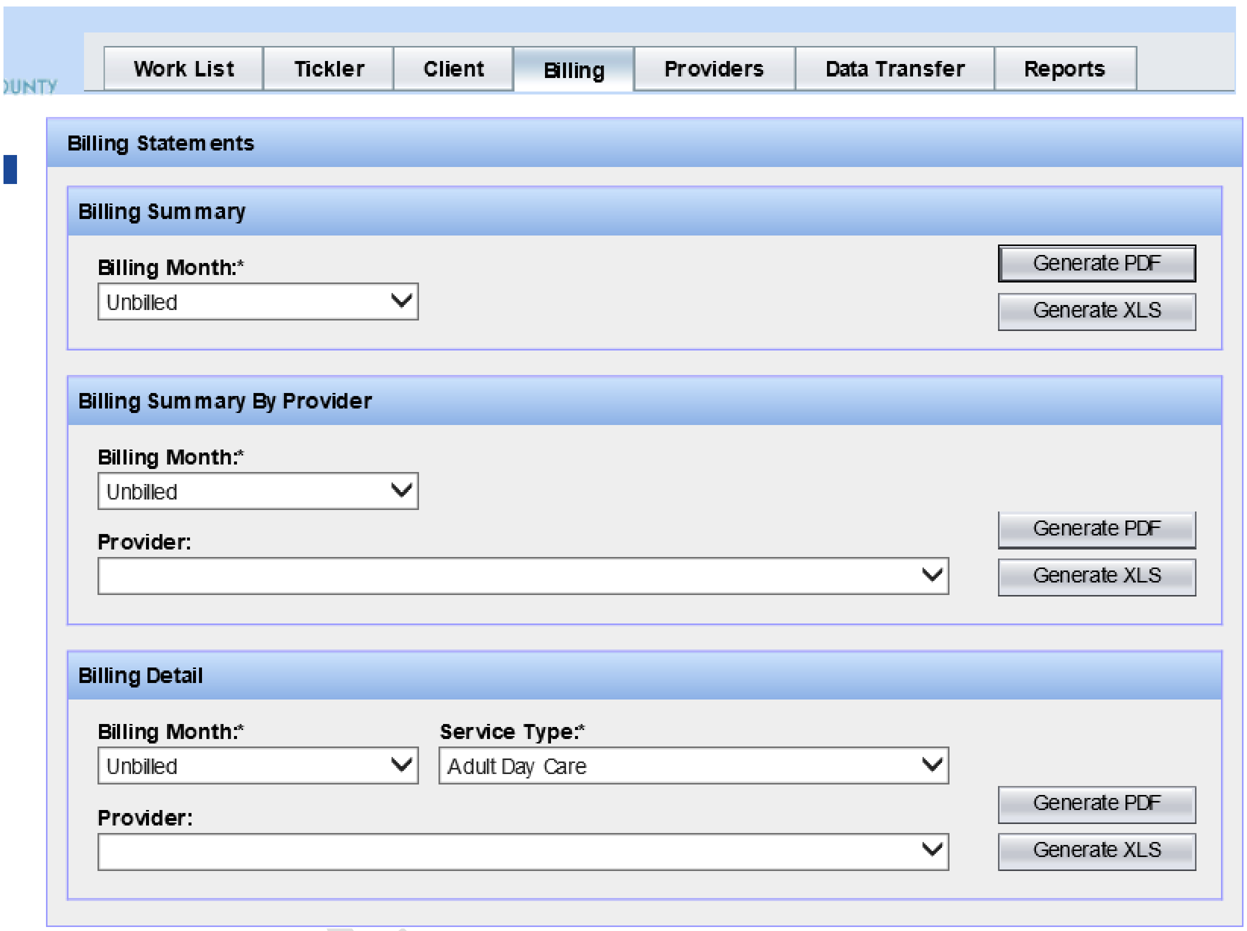
Billing Statements- Unbilled

The Billing Statements screen is divided into three sections: (1) Billing Summary at the top, the (2) Billing Summary By Provider in the middle, and (3) Billing Detail on the bottom. **Note: Another way to check for errors is to view "Unbilled" statements**.

1. *Click* the Billing Statements link. The Billing Statements screen will be displayed:



Billing Summary:

1. *Pull down* the Billing Month menu and *choose* Unbilled.

2. *Generate* a PDF. *Close* when you are finished.

Billing Detail:

1. *Pull down* the Billing Month menu and *choose* Unbilled.
2. *Pull down* the Service Type menu and *choose* the Service Type. *Generate* a PDF.
3. *Close* when you are finished.

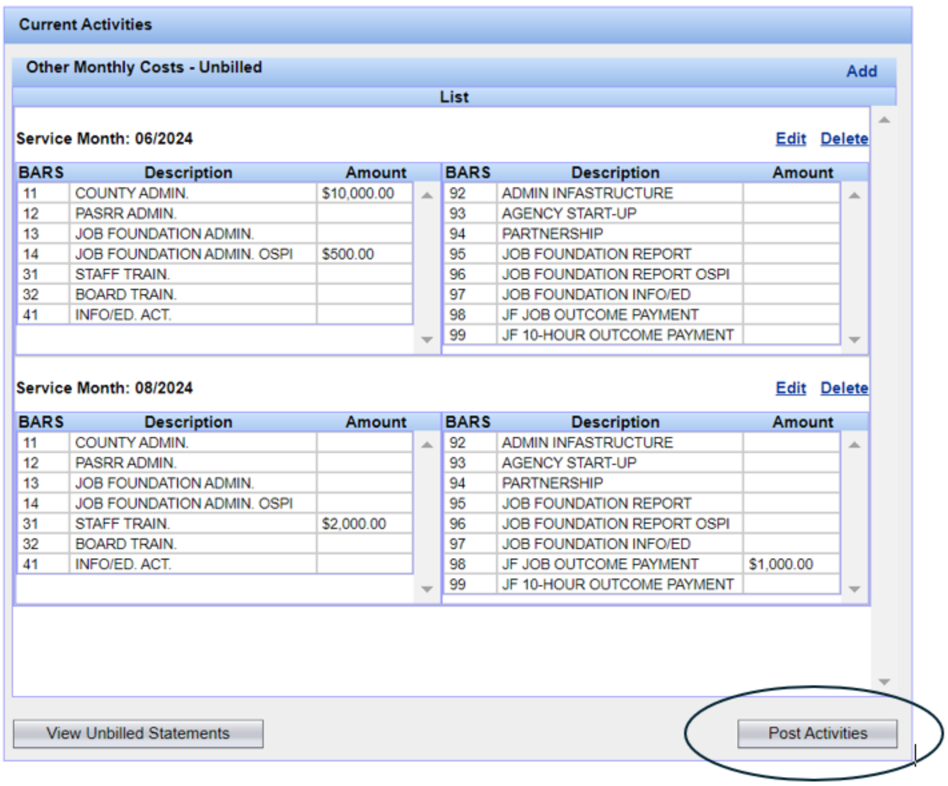
Turn to the next page for information about posting the billing.

Billing

Current Activities - Post

<u>Billing can be "Posted" only once each calendar month</u>. The "month" is based on the web server clock (not your computer clock). The Billing Month data may include multiple Service Months. Once the billing has been "Posted" the County Billing Summary will not be available from this screen. It will be available from the Billing Statements screen.

Before posting, you should review the Unbilled Statement to assure you have entered all the data you need submitted at this time.



Note: When the "Post Activities" button (on the Current Activities screen) is clicked the posting happens behind the scenes and may take a few minutes.

You will see a message that says "**Posting successful**".

Turn to the next page for information about Data Transfer.

Data Transfer

Overview

The County has two data transfer processes: One for **Employment Outcome** information and the other for **Billing**.

Employment Outcome

During each month the County extracts data from DDA on clients authorized for services in their County. The Employment extract **(Output)** contains clients authorized for services in their County during the period specified in the authorization range (**Start Year/Month and End Year/Month**). The extract information will contain any previous information provided by the County until an employment job end date is provided.

After the County receives client employment data from their providers, the data is validated and uploaded **(Input)** in AWA**.** The County may upload employment outcome data as often as wanted; however, this should occur on a regular basis to assure statewide information is up to date. Corrections can also be made individually thru the Client Employment Outcomes dialog box or by uploading corrected information.

Billing

During the last week of the service month, or early the next month, the County extracts data on clients authorized for services in their County. The Billing extract **(Output)** contains each service authorized for each client for the month and year entered.

After the County incorporates service data from their providers, the data is validated and uploaded **(Input)** in AWA. Uploaded billing information can be reviewed prior to posting (see previous section – Current Activities – Post). <u>**Posting in AWA can only occur once a month.**</u>

Click the Data Transfer tab. The Data Transfer tab has several <u>links</u> located in the left column. The Output screen will be displayed:

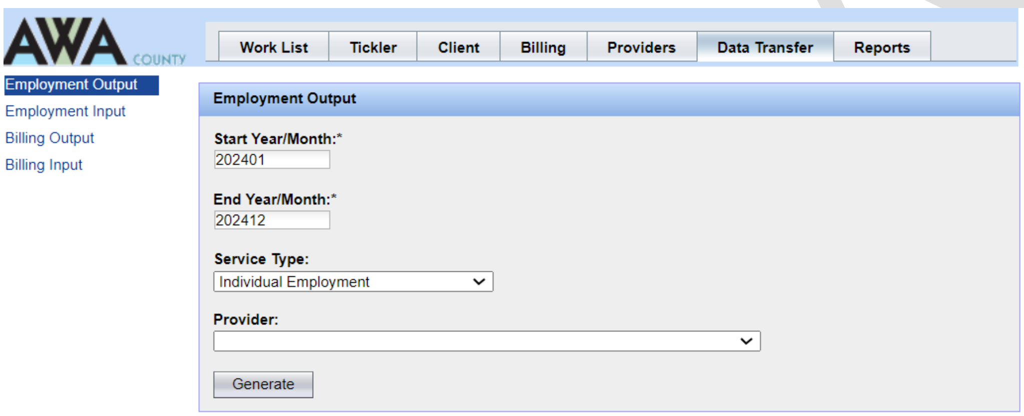
Turn to the next page to begin with Employment Output.

Data Transfer

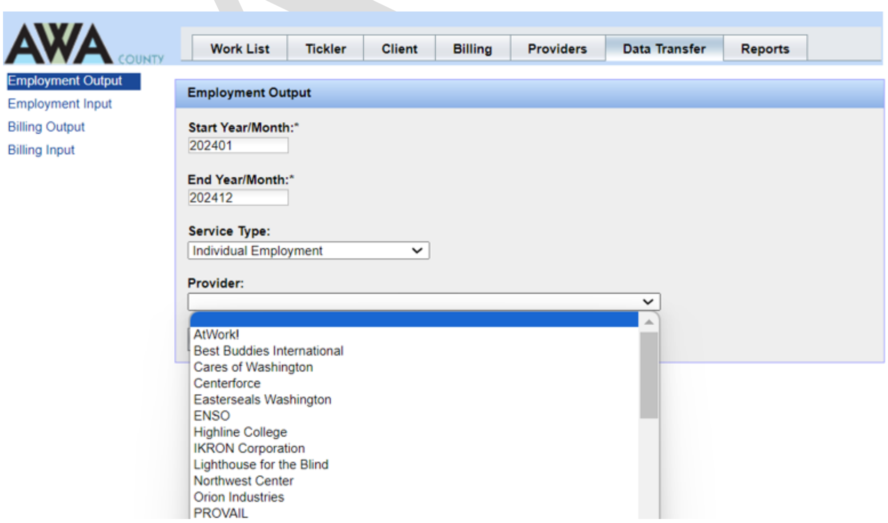
Employment Output

The Employment Output file is to collect information on the client's Employer, the job type, start date, benefits received, and the job end date. To generate an Employment Output file enter the Start and End dates that represents the time range you wish to download.

1. *Type* a Start Year/Month (example 202401) or click on the service month /year in the calendar.
2. *Type* an End Year/Month (example 202412) or click on the service month /year in the calendar.
3. Enter the **Service Type** that you want an output file for. If you do not specify the Service Type you will receive all Service Types.

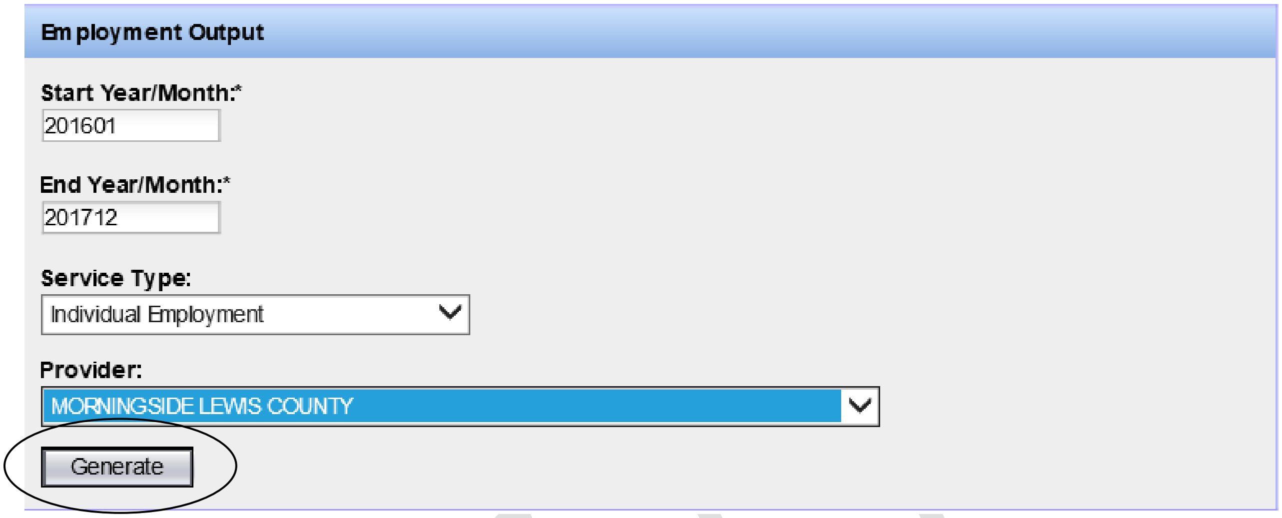


4. Enter the Provider that you want an output file for. If you do not specify the Provider you will receive all Providers for the chosen service type.



Continue with Employment Output on the next page.

5. *Click* on Generate to download the file.



6. *Click* Save.

7. *Send* the file to appropriate provider to input the information.

Note: The file will be saved as a .csv or “comma separated value” type file.

Note: It is important that your providers understand the data format to use as well as the appropriate “Job Type” 4-digit code. This information it located in the back section of this workbook.

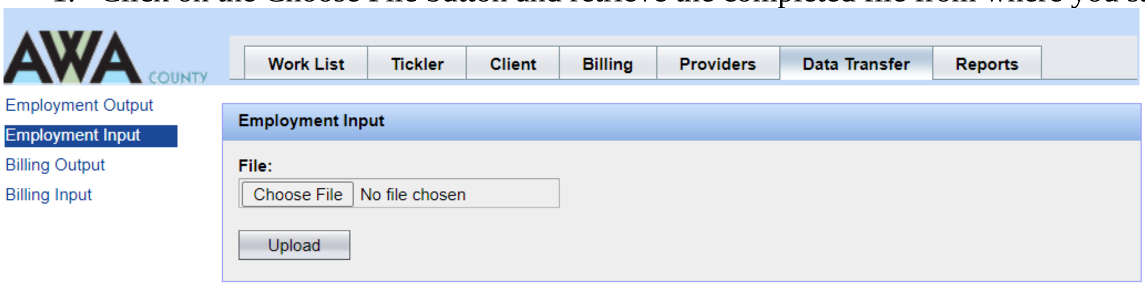
Turn page to continue Employment Output and for an overview of Employment Input.

Data Transfer

Employment Input

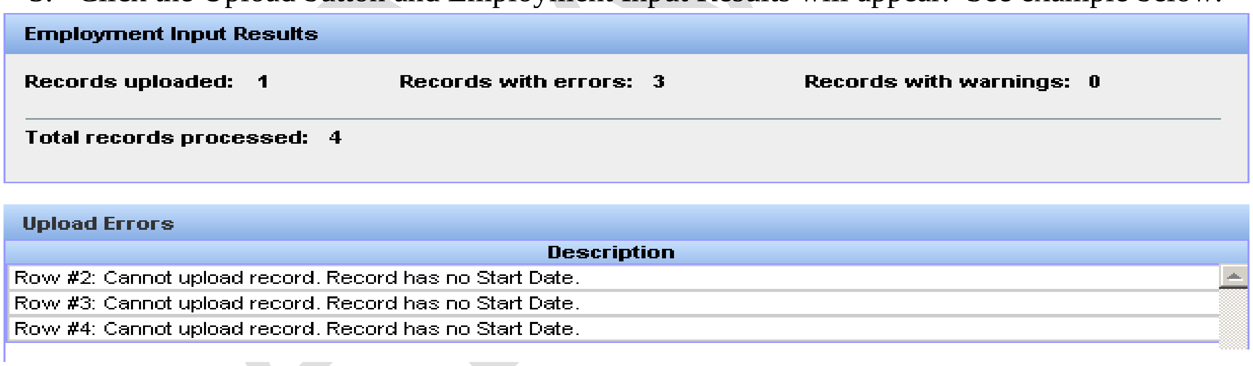
Once you have received the completed Employment Output file from your provider you are now ready to Input the data file.

1. Click on the Choose File button and retrieve the completed file from where you saved it.



2. Once you have located the file (where you saved it) select it. The file name should appear in the File Box.

3. Click the Upload button and Employment Input Results will appear. See example below.



NOTE: The data is validated during the Input process and any listed errors are system detected

4. You can click on your Excel file to look at the rows that contain the errors. In the case of no Start Date for several records this may not be an error just that the client isn't working yet.

Turn to the next page to see Employment input errors process.

Employment Input Errors

Refer to the **Employment Validation Rules** in the Appendix of this workbook.

1. **Open the Excel file.**

2. *Go to* the Desktop or wherever the file was saved and *Double-click* the file name.

3. *Correct* the errors.

   Save your changes:

4. *Choose* File and *Save As*….

   Upload with corrections:

5. Use the steps you already know to upload the Employment Input file again.

   Note: The Upload process will update the original file with the corrected rows. So, the last upload you do will always be the one that will be used for final Posting.

Turn to the next page to see Billing Output.

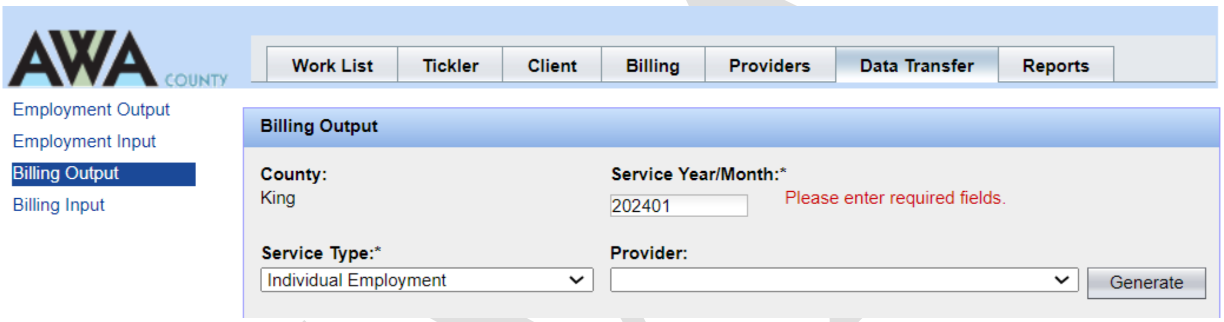
Data Transfer

Billing Output

Generate a Billing Output file.

1. *Type* a Service Month (example 202401) or click on the Service Month/Year in the calendar.
2. *Pull down* the Service Type menu and *choose* the service type.

   Each **Service Type** has its own set of data elements and must be downloaded as a separate file.



.

NOTE: If a **Provider** is entered, the County will receive a file containing all DDA clients authorized for the selected service in that County for the month and year *for that Provider only*. **<u>Selecting a provider is not required.</u>**

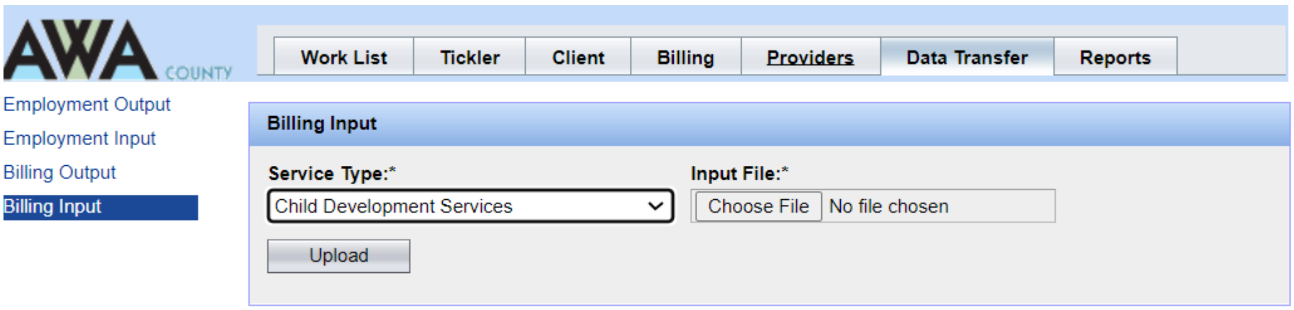
3. *Click* the Generate button to download the file.
4. *Click* Save As.
5. *Select* a location – example - **DESKTOP**.
6. *Name* the file – example name for the file: **<u>202401 IE Spokane.</u>**
   NOTE: The file will be saved as a .csv or "comma separated value" type file.
7. *Click* Save.
8. *Send* the file to appropriate provider to input the information.

Turn to the next page to practice with Billing Input.

Billing Input

The County may submit (upload) data files multiple times before "posting" the bill.

1. *Click* the Billing Input Link and the Input screen will be displayed:



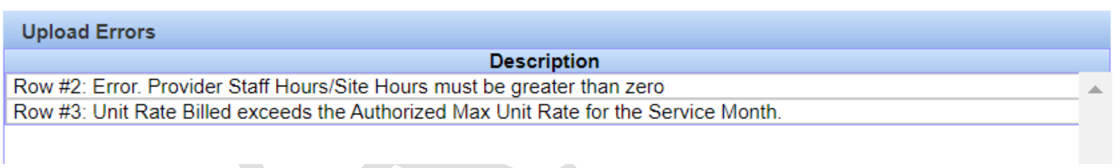
2. *Pull down* the Service Type menu and *select* a service. Each Service Type has its own set of data elements and must be Input as a separate file.

3. *Locate* and *select* the appropriate file.

4. *Click* Open.

5. *Click* the Upload button. The data will be uploaded to the system and the Billing Input Results will show the number or records uploaded and the total records processed. If errors exist, an errors list will display with a description.

Example of an errors list:



NOTE: The data is validated during Input and any listed errors are system detected. For example, Unit Type must have an entry; # of Units and Unit Rate must have a valid number. You can click on your Excel file to look at the rows that contain the errors. Refer to the **County Billing table** in the Appendix of this workbook.

Turn to the next page to correct the errors.

Billing errors

If you see an error:

1. *Click* the “Download Errors” button.
2. *Click* Save. The “Save As” dialogue box will be displayed.
3. *Select* a location – in class choose DESKTOP.
4. *Name* the file – (example - **202401IE_errors).**
   NOTE: The file will be saved as a .csv or “comma separated value” type file.
5. *Click* Save.
6. *Go to* the Desktop.
7. *Double-click* the **202401IE_errors**.
8. *Correct* the errors and *save* the changes.
9. *Choose* File and *Save As*….
10. *Choose* Desktop; name the file **202401IE_corrected.**
11. Upload the corrected file.
12. Use the steps you already know to Upload the Input file again.

    Note: The Upload process will update the original file with the corrected rows. So, the last upload you do will always be the one that will be used for posting the billing.

Turn to the next page to view the Billing correction process.

Billing Correction Record

Once you have posted a billing, it becomes a permanent record and cannot be changed. You can, however, create a correction record with the next Input (use the corrected file for the same service month) so it will be added to the next Billing Statement. The next Billing Statement will display that corrected record. (The information is found in the Billing Detail report.)
Note: For indirect services you will need to add or subtract the corrected amount. For direct services the corrections are an overlay so you would replace the original record with corrected data.

Direct Service Example:

Billing #1:

Service Month	Service	Provider	Unit	Rate	Total
7/2024	IE	GetJobs	**20**	100.00	2000.00

You discover that Chris' units should be 10 not 20. 10 must be entered in the unit category to correct this error.

Billing #2 – Correction Record:

Service Month	Service	Provider	Unit	Rate	Total
*7/2024	IE	GetJobs	**10**	100.00	1000.00

Indirect Service Example:
Billing #1: 92 "Admin Infrastructure" was billed in error:

BARS	Description	Amount
11	COUNTY ADMIN.	$4,783.17
12	PASRR ADMIN.	$44.80
31	STAFF TRAIN.	
32	BOARD TRAIN.

BARS	Description	Amount
92	ADMIN INFASTRUCTURE	$983.92
93	AGENCY START-UP	
94	PARTNERSHIP	
95		

Billing #2: Correction Record – prior amount for 92 "Admin Infrastructure" needs to be subtracted to correct this error:

BARS	Description	Amount
11	COUNTY ADMIN.	
12	PASRR ADMIN.	
31	STAFF TRAIN.	
32	BOARD TRAIN.	
41	INFO/ED. ACT.	

BARS	Description	Amount
