Client Hospitalization Tracking Report

First Quarter 2025
January – March

This report is provided in compliance with RCW 71A.12.360 and represents only those DDA clients who received residential habilitation services from certified residential service providers (Supported Living and State Operated Living Alternative) and were taken or admitted to a hospital. The report does not include hospitalization data beyond SL/SOLA.

Information in this report reflects data from January – March 2025. It is not a year-to-date roll-up.

Data provided in this report:

- Number of clients taken or admitted to a hospital with a medical need and unable to discharge once the medical need was met.
- Average length of stay for clients who remained in the hospital after they were cleared for discharge and their barriers to discharge.
- Number of clients taken or admitted to a hospital without a medical need.
- Location by county before admission to an acute care hospital.
- Type of provider prior to admission.
- Discharge location by county.
- Type of provider at discharge.
- Number of SL/SOLA provider termination and reason for termination notice.

TABLE 1

Clients Who Were Medically Cleared but Not Discharged and Clients Who Discharged

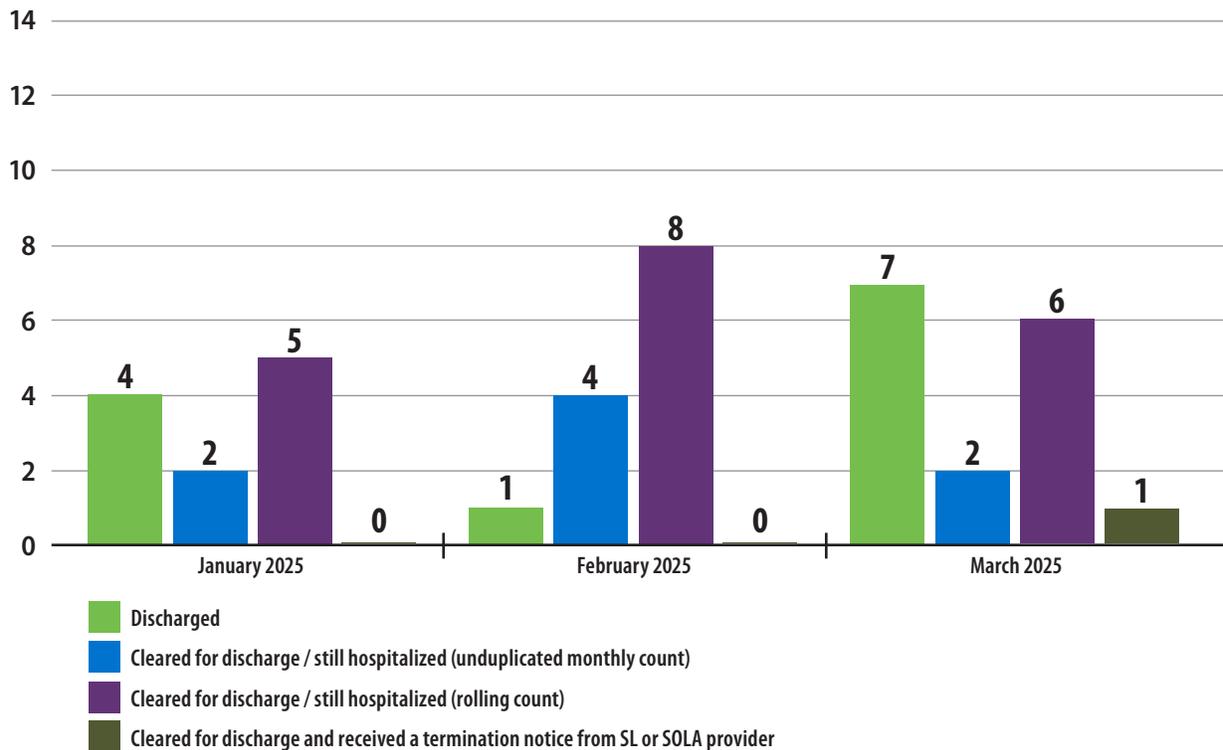

TABLE 2

Total Number of Clients Who Were Discharged and Total Number of Clients Who Were Cleared for Discharge

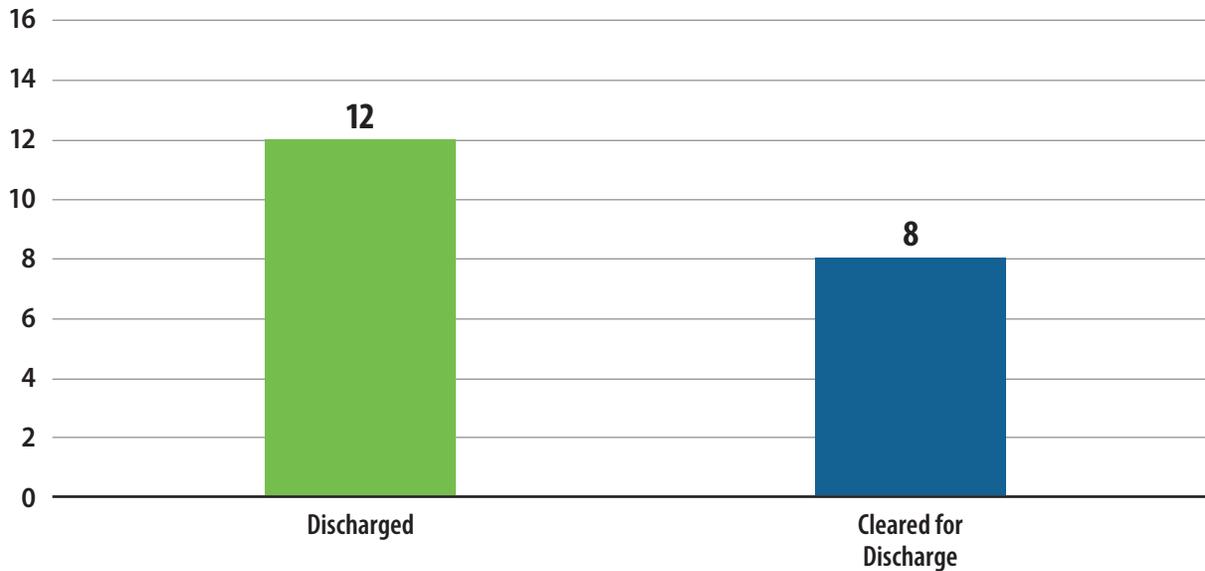

TABLE 3

Clients Taken to an Acute Care Hospital Without a Medical Need

Month of Admit	County at Admission	Provider Type at Admission	Month of Discharge	Length of Stay	Provider Type at Discharge
No clients were taken to an acute care hospital without a medical need in the First Quarter of 2025 (January – March).					

TABLE 4

**Hospitalized Clients:
County Prior to Admission to an Acute Care Hospital**

County	Number of Clients*	Percentage of Clients
Benton	1	8%
Clark	1	8%
King	3	25%
Pierce	1	8%
Snohomish	1	8%
Spokane	5	42%
TOTAL	12	100%**

*Client count is unduplicated

**Percentages are rounded to nearest whole number.

TABLE 5
Discharged Clients:
Average Length of Stay and Barriers to Discharge

Month	Number of Clients*	Average LOS (days)	Identified Barriers
January	4	37.25	Not behaviorally stable, significant behavioral health condition, aggressive or inappropriate behaviors, cannot return to previous setting.
February	1	27	Medically complex at discharge.
March	7	37.43	Medically complex at discharge, significant behavioral health condition, aggressive or inappropriate behaviors, not behaviorally stable .

** Client count is duplicated. Data represents clients identified in Table 1. Each client's total length of hospital stay is available upon request.*

TABLE 6
Discharged Clients:
Provider Type Prior to Admission

Provider Type	Number of Clients Discharged	Percent of Clients by Provider Type
Other	1	8%
State Operated Living Alternative	1	8%
Supported Living	10	83%
TOTAL	12	100%*

Table represents clients who discharged from acute care hospitals in the 4th Quarter of 2024 whose original residence type was either Supported Living or SOLA.

** Percentages are rounded to nearest whole number.*

TABLE 7
County of Residence Upon Discharge

County at Discharge	Number of Clients Cleared for Discharge	Percent of Clients by County
Benton	1	8%
King	3	25%
Mason	1	8%
Snohomish	1	8%
Spokane	5	42%
Stevens	1	8%
TOTAL	12	100%*

* Percentages are rounded to nearest whole number.

TABLE 8
Discharged Clients: Provider Type Upon Discharge

County at Discharge	Number of Clients Cleared for Discharge	Percent of Clients by County
Assisted Living Facility	1	8%
Family Home	1	8%
Homeless or Homeless Shelter	1	8%
Skilled Nursing Facility	1	8%
Supported Living	8	67%
TOTAL	12	100%*

* Percentages are rounded to nearest whole number.

TABLE 9
Supported Living / SOLA Provider Termination Data

Month of Admit	County at Admission	Provider Type at Admission	Month of Discharge	Length of Stay	Provider Type at Discharge	Reason for Termination
March	King	Supported Living	Still hospitalized currently	43	TBD	Behavioral Acuity
