TANF Time-Limit Extensions

The exhibits in this section summarize TANF cases that have been extended beyond the 60 month time limit. Federal law allows states to extend TANF benefits beyond the 60-month time limit for up to 20 percent of the caseload based on hardship or family violence. States can also show reasonable cause to exceed the 20 percent cap based on the number of families experiencing family violence. The first month cases were extended in Washington State was in August of 2002.

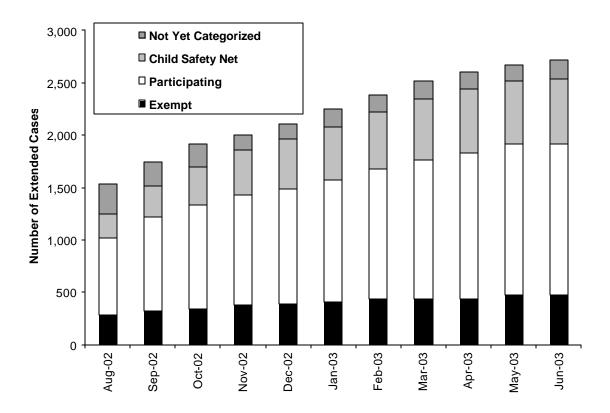

In the following exhibits, we include both federally-funded TANF and state-funded SFA cases, unless otherwise noted.

Highlights:

- In June 2003, a total of 2,718 TANF cases were extended beyond their 60-month time limit; 474 (17.4%) of the cases were extended due to an exemption, 1,437 (52.9%) were participating, 620 (22.8%) received a Child SafetyNet Payment, and 187 (6.9%) were not yet categorized.
- As of June 2003, Washington reached 24.9% of the annual allowable federal cap on extensions. The annual allowable federal cap is defined as 20% of the average monthly TANF caseload in Federal Fiscal Year 2002. It is calculated by dividing 2,718 (the number of extended cases in June 2003) into 10,922 (20% of 54,609).
- Through June 2003, 6.8% of all TANF adults had reached 61 or more months on assistance.
- In June 2003, most adults who were extended beyond the 60-month time limit were female (91.0%), white (54.7%), and not married (81.2%). The median age was 36.0 years.

Notes:

The federal cap Definition: 20% of the average monthly TANF caseload in Federal Fiscal Year (FFY) 2002 as of November 15, 2002 (54,609). The average monthly TANF caseload includes child-only cases. It is calculated by dividing 2,718 (the number of extended cases in June 2003) into 10,922 (20% of 54,609).
