TIME SPLIT: **F**   **M**

RESIDENTIAL SCHEDULE
USE WHEN A CHILD SPENDS MORE THAN 25% (91 NIGHTS) WITH THE PAYING PARENT[1]

A	List Children	Child 1	Child 2	Child 3	
B	Basic Support per child				
C	Overnights with Father				
D	Proportional overnights with Father (Line C divided by 365 for each child)				
E	Overnights with Mother				
F	Proportional overnights with Mother (Line E divided by 365 for each child)				
G	Father's credit proportion: (for each child subtract .25 from the entry on Line D. Multiply result by 2). NOTE: For answers less than 0, enter "0". For answers greater than 1, enter "1.0". For answers between 0 and 1, enter the exact amount.				
H	Mother's credit proportion: (for each child subtract .25 from the entry on Line D. Multiply result by 2). NOTE: For answers less than 0, enter "0". For answers greater than 1, enter "1.0". For answers between 0 and 1, enter the exact amount.				
I	Father's residential credit (for each child multiply Line G x Line B)				
J	Mother's residential credit (for each child multiply Line H x Line B)				

---

[1] Taken from the 1988 WSCSS

K	TRANSFER PAYMENT CALCULATIONS:	Father:	Mother:
L	Total basic support for each parent (Line 5 of the Child Support Worksheet)		
M	Total residential credits for each parent: (Father's credit equals the total of the entries on Line I. Mother's credit equals the total of the entries on Line J).		
N	Transfer Payment (For each parent, subtract Line M from Line L). NOTE: If the resulting answer is less than 0, enter "0".		

Add daycare to this amount.
