**Summary**

The ACES Letters Review Board (LRB) has been working the past several months to update the ACES letter reason codes, WAC references that go on the letters, and the user generated free-form text requirements for the letters.

Various reason codes have been deleted and some new ones have been added. The goal is to have all the ACES letter reason codes in the manual match what is in the ACES Letters Management System (LMS).

This revision also includes updating new Health Care Authority (HCA) WAC references and associated hyperlinks.
