

Basic Food

Washington State Department of Social and Health Services
Economic Services Administration
Community Services Division

Program Description

The Basic Food program provides assistance for individuals and families to purchase and access nutritious foods, which plays a critical role in supporting our communities in reaching their full potential. Basic Food refers to a combination of Washington state's federally funded Supplemental Nutrition Assistance Program and the state-funded Food Assistance Program, which is for legal immigrants who do not yet qualify for federal SNAP benefits.

We provide tools and resources to promote well-being through:

- **Access to healthy foods.** Healthy food is foundational to our well-being and without it we struggle to fully contribute to our community. Basic Food provides monthly food benefits to ensure children and adults have a full belly and access to nutritional foods that help us through all stages of life by ensuring healthy brain development, greater school attendance, increased health and social inclusion. In order to qualify for Basic Food, a household's earnings must fall below 200% of the federal poverty level (\$52,400 for a family of three). The average daily benefit for a household receiving Basic Food is \$8.12 per day.
- **Outreach and education.** In addition to food assistance, the program conducts statewide educational efforts to spread healthy eating awareness and increase physical activities through SNAP-Education. When our community members have the tools we all need to thrive, including knowledge about fresh, healthy food, resource management and food safety, they can create lifelong habits that build a solid foundation for themselves and their families.
- **Connection to employment and training opportunities.** The Basic Food Employment and Training program is a partnership between DSHS, community-based organizations and the State Board of Community and Technical Colleges. BFET gives youth and adults the opportunity to make use of their gifts and talents to increase their skills and expertise so they have a broader range of options for future employment.

Highlights

- **During the months of March through June 2020, the average monthly food benefit increased by \$214.38** as a result of federal Emergency Allotment increases related to the COVID-19 pandemic.
- **The BFET program operates in 36 of 39 counties in Washington state** and is one of the most robust employment and training programs in the country.

Basic Food Facts

Trends

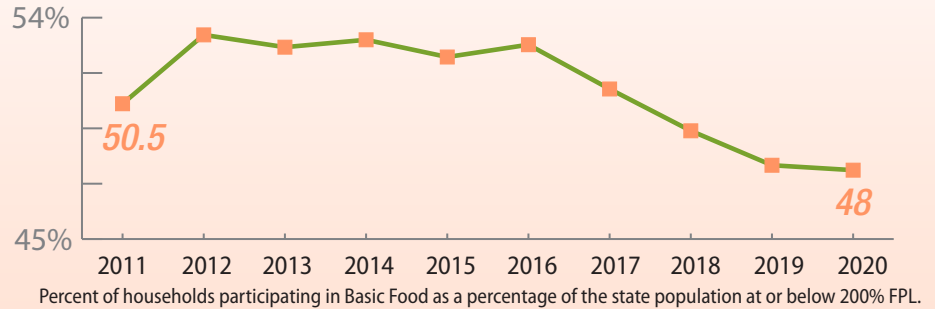

The number of people served by Basic Food has decreased from FY 2019 to FY 2020.

FY 2019 **841,927**
 FY 2020 **838,550**

Meeting the Need

The percent of households receiving Basic Food increased during the last recession and decreased as the economy continued to improve. For every 100 households living below 200% of the federal poverty line, 48 were served in 2020.

Characteristics of People Served

Adults, females and people who racially identify as white make up the majority of the caseload.

Average Benefit

The average benefit for a household receiving Basic Food.

\$8.12
per day

Receipt of Other Benefits

73% of people receiving Basic Food do not receive any other cash benefit.

Budget

Basic Food accounted for less than 1% of state spending in the 2019-2021 biennium.
