

HEALTH HOME  
**Health Action Plan  
Instructions**

Complete the Health Action Plan (HAP) for each client upon assignment to the Health Home program. The HAP provides documentation of the health plan developed by the Care Coordinator, the client, the family, the parent and/or their caregiver. The HAP is established for one assignment year with three columns representing a four month time period. Each time period ranges from 120 to 123 days depending on the number of days within the four months.

The HAP must be updated a minimum of once during each four month activity period. The form provides three columns for entry of the initial or annual HAP, the four month update, and the eight month update. At the completion of a year a new HAP is started on the anniversary date. Long term goals, short term goals and action steps may be revised, deleted or carried over to the next HAP period.

### HAP Dates Flowchart

The HAP is updated by the Care Coordinator to address:

- Outcomes of monthly contacts;
- Changes in the client's condition;
- Care transitions between settings;
- Updated goals;
- Resolution of goals or action steps; or
- When a client opts-out, dies or is no longer eligible for the program.

The following are documented in the client's file or medical record: the client narrative, telephone calls, face-to-face visits, collateral contacts, consultations, referrals, interventions, visits to providers, etc.
