CCRSS Infection Prevention and Control (IPC) Complaint Investigation Tool

FACILITY NAME	CERTIFICATION NUMBER
PROVIDER / LICENSEE NAME	CD NUMBER
INVESTIGATOR NAME	ENTRANCE DATE
INTAKE NUMBER(S)	

RCS staff will use the IPC Pathway or tool to Investigate IPC related complaints. You are required to submit the Pathway or tool with your working papers. Assess elements through a combination of observations, interviews, and record review throughout the visit.

Check Yes, No, or N/A. If “No” is checked, document findings in the notes section and/or on the IPC Assessment notes form, DSHS [00-413A](#). N/A (Not Applicable) indicates the item was not observed or reviewed or was not relevant to the investigation.

Interview Questions. Write response to corresponding letter and number. Write out (ask) additional questions as needed.

For Supported Living client homes, this pathway refers to how the service provider complies with IPC guidelines.

- **Staff:** The long-term care worker (LTCW) is required to follow standard IPC guidance for Healthcare Personnel (HCP). For example, use of Personal Protective Equipment (PPE) when caring for a client with COVID-19.
- **Clients:** The service provider should be educating and encouraging clients to follow IPC recommended practices to prevent and recognize infection.
- **General:** The provider is required to ensure everyone is aware of recommended IPC practices.

Identify and review National and State IPC standards, rules, and definitions applicable to the setting:

- [Standard Precautions](#)
 [Transmission Based Precautions\(TBP\)](#)
 [Notifiable Conditions](#)
 [Respiratory Protection Program \(RPP\)](#)

Communicable disease outbreak:

- Yes
 No
 Unknown
 N/A

Organism:

Mode of transmission

(check all that apply):

- Contact Foodborne
 Droplet Unknown
 Airborne N/A

PPE Plan for the visit (check all that apply):

- None needed Eye protection
 Use facility PPE Source control
 Full PPE with Fit Tested N95 Respirator

Provider Interview				Provider Interview Notes
A. Ask the provider about outbreak management: <ol style="list-style-type: none"> 1. Which clients are affected? 2. Has anyone else been sick with the same symptoms? When? 3. What was the source of infection / outbreak? 4. What have you done / are you doing to prevent the spread of the communicable disease / foodborne illness? 5. Whom have you notified (LHJ, CRU, Before Transport)? When? 6. Have the involved clients improved? How do you know? B. Ask the provider to describe infection prevention and control training for staff and clients. Does training include: <ol style="list-style-type: none"> 1. Standard precautions including hand hygiene, use of PPE, respiratory hygiene / cough etiquette, isolation, cleaning, and disinfecting care. 2. Transmission-based precautions, when and how to use and dispose of PPE. 3. Equipment and environment, safe handling of laundry and cleaning / disinfecting. 4. Sick leave policies and importance of not reporting or remaining at work when ill. C. Ask the provider how they know or ensure: <ol style="list-style-type: none"> 1. Staff are following training. 2. Supplies for handwashing, cleaning / disinfection / tissues are readily available and accessible for clients, staff, and visitors. 				
Client / Family / Visitors Interview				Client / Family / Visitor Interview Notes
<ol style="list-style-type: none"> 1. Have you been sick (had an infection, fever, chills, severe nausea, diarrhea, other symptoms)? 2. How long were you ill and what were your symptoms? 3. Was anyone else in the facility sick (other clients, staff)? 4. What did the facility do to help you? 5. Do staff wear gloves? When? 6. Do you have concerns about how housekeeping services are done / sanitary practices etc.? 				
Staff Interview				Staff Interview Notes
<ol style="list-style-type: none"> 1. Which clients have been sick (had an infection, fever, chills, severe nausea, diarrhea, other symptoms)? 2. What do you do to prevent the spread of infection from one person to another? 3. Do you have enough PPE (gloves, gowns, masks)? 4. What do you do if you personally or other staff are ill or have an infection? 				
Record Review – Prevention, Testing, Surveillance, and Treatment				Record Review Notes
<ol style="list-style-type: none"> 1. Illness / symptoms promptly identified and timely facility / primary health care provider responses. 2. Outbreak testing done. 3. Treatment or exposure prophylaxis administered as recommended or directed. 4. Ill clients(s) status monitored, surveillance of clients and staff. 5. Follows LHJ guidance for testing and tracking. 6. Notification of representatives, staff, visitors, LHJ.

Compliance Decision			
IPC Regulatory Requirement: There may be many related regulations to consider. Use the regulations below to cite breaches in infection prevention and control practice.	N/A	Met	Not Met
WAC 388-101D-0170 Physical and safety requirements. (2) The service provider must ensure that the following home safety requirements are met for each client unless otherwise specified in the client's individual support plan: (a) A safe and healthy environment (Staff followed infection prevention and control measures to prevent the spread of infection).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
WAC 388-101D-0145 Client services. Service providers must provide each client instruction and/or support to the degree the individual support plan identifies the service provider as responsible. Instruction and/or support to the client may include but are not limited to the following categories: (4) Health and safety activities (Staff provided clients instruction and support to prevent the spread of infection).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
WAC 388-101-3020 Compliance. The service provider must be in compliance with: (5) Other relevant federal, state and local laws, requirements, and ordinances. (Has written Respiratory Protection Program and records for training, medical clearance approval and fit testing per Chapter 296-842 WAC Respirators.)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
