Transforming lives

Our story

As part of Washington State's Division of Child Support (DCS), the Alternative Solutions Program works as a bridge between community services and the people they assist.

The Alternative Solutions Program looks to change how parents view their partnership with DCS. Our approach considers each parent's needs. Our team members provide information and education on how DCS works, making the processes easier to understand.

Our commitment

We value the role parents play in their family and community and we are dedicated to providing opportunities for Washington State parents.

The Alternative Solutions Program works with you, one on one. Accessing a database of over 4,500 resources from across the state, our program creates a plan in collaboration with you to connect to services in your community that can help you to achieve your goals.

Our staff will work compassionately with you to address the barriers that keep you from being able to pay your child support.

We look forward to
hearing from you.

How we can help

When you participate in the Division of Child Support's (DCS) Alternative Solutions Program, our Program Specialists work with you to design an action plan for you that can include:

- Working with community partners that can help with employment, housing, food, medical, legal resources, and much more.
- DCS direct services that may help lower your monthly payments or reduce state debts.
- Help with license reinstatement and other enforcement actions.
- Referrals to direct employment services developed in partnership with the Department of Social and Health Services.

The Alternative Solutions Program is committed to your success. Give us a call or send us an email.
