

Community Protection Waiver

Department of Social and Health Services' Developmental Disabilities Administration

Waiver Overview

We have five Home and Community-Based Service Medicaid waiver programs. Each waiver offers specific services to meet your health and safety needs in the community, rather than in an institution. The Community Protection waiver offers services that might not be available through private insurance, Apple Health (Medicaid), school or other resources.

The Community Protection waiver offers therapeutic residential supports when you need 24-hour, on-site staff supervision to ensure the safety of yourself and others. You must be age 18 or older and agree to follow the Community Protection program.

Integrated Settings Rules

The Integrated Settings rules make sure you get services as part of your community. You should have access to all the benefits of community life, just like people who don't receive services. These rules apply to all Home and Community Based waivers. You can read more about it in our Integrated Settings brochure.

Waiver Service

You can use this brochure to plan for your annual assessments. A case resource manager will explain services and requirements. They will add the services you choose and are approved for to your Person-Centered Service Plan. Some services need review and approval before they start. Ask your CRM about what information is needed for approval.

Use check boxes to show your CRM which services you are interested in:

Community Services

- Residential habilitation** – assistance to learn, improve or keep skills needed for living in the community.
- Supported employment** – ongoing individual and group support to get and keep a job after high school.
- Transportation** – mileage reimbursement for your provider to take you to your waiver services.

Professional Services

- Positive behavior support and consultation** – direct intervention and supports that address behavioral health needs to promote behaviors that improve quality of life and inclusion in the community. Ends August 31, 2023.
- Risk assessment** – evaluations of violent, stalking, sexually violent or predatory behavior to determine if you need psychological, medical or therapeutic services.
- Specialized evaluation and consultation** – basic sex education, social skills training, fire safety and learning about rules and laws.
- Stabilization services** – support when you do things that make you at risk of losing your housing. The supports include specialized habilitation, staff and family consultation and crisis diversion bed services.
- Staff and family consultation and training** – professional consultation to family and direct service providers to better meet your needs.
- Therapies** – occupational, physical, speech, language and hearing services beyond those provided by Apple Health. For ages 21 and up.

Caregiving Services

- Skilled nursing** – ongoing nursing care tasks to address nursing needs not met through Apple Health. For ages 21 and up.

Goods and Services

- Assistive technology** – products and training used to improve or maintain daily living skills, safety or social connections.
- Bed bug extermination** – treatment for bed bugs in your home.
- Environmental adaptations** – physical changes to the home to help you move around your house or to enter it.
- Specialized equipment and supplies** – medical supplies and specialized items not available under Apple Health that you need to stay safe and healthy in your home.

Community Protection Waiver

Department of Social and Health Services' Developmental Disabilities Administration

Waiver Eligibility

You may receive a waiver if you:

- Are an eligible DDA client.
- Have a disability according to the Social Security Act.
- Apply for long-term care services through Apple Health.
- Have verified income that is not more than 300% of the Social Security Income federal benefit standard.
 - If you are a child, your parents' income and resources are not considered.
 - If you are an adult living with your spouse, your spouse's income and resources are not considered.
- Have resources less than \$2,000 or are in the Apple Health for Workers with Disabilities program.
- Meet the level of care provided in an Intermediate Care Facility for Individuals with Intellectual Disabilities. This is determined through your DDA Assessment.
- Have a Person-Centered Service Plan that shows that you need a monthly waiver service to help you stay healthy and safe in the community.
- Agree to accept home and community-based services rather than an ICF/IID.
- Are approved to receive a DDA waiver program.
- For Community Protection only, you must also be:
 - Age 18 or older.
 - At risk of violent, stalking, sexually violent or predatory behavior.

Administrative Hearing Rights

You have the right to an administrative hearing if we:

- Deny or end your DDA eligibility.
- Delay acting on an application without good reason.
- Deny, reduce or end services.
- Deny your choice of service provider.
- Move you to a different residential setting that is not your choice.
- Don't follow your requests about who we send notices to.
- Remove you from a waiver program.
- Deny your request to receive ICF/IID services instead of waiver services.
- Decide you do not need ICF/IID level of care.

You can also request an administrative hearing if you:

- Disagree with the type or amount of service we authorized you to receive.
- Believe your current waiver does not meet your health and welfare needs and were denied enrollment on a different waiver because of that.

Access to a Waiver

You can ask your case manager to request a waiver or switch to a different waiver at any time. If a case manager is not available, call the phone number listed under Regional Offices and leave a message. You can also make the request online at dshs.wa.gov/dda/service-and-information-request.

Meeting eligibility does not guarantee that you will be approved for a waiver or waiver services. Each waiver has a limit on the number of people it can serve. We cannot approve more people on a waiver than there are slots for the waiver.

Your assessed need for services might be more than what the Basic Plus waiver provides. If this happens and you are on a waiver, we will make one or more of the following efforts to meet your health and welfare needs:

- Find more available natural supports.
- Review an "exception to rule" to access services not offered in the waiver, if you ask for an exception.
- Suggest a different waiver that supports your needs.
- Offer placement in an intermediate care facility for individuals with intellectual disabilities.

If none of the above options meet your health and welfare needs, we may end waiver eligibility. If taken off a waiver, you may still qualify for other non-waiver DDA services.
