

Your food benefits are changing

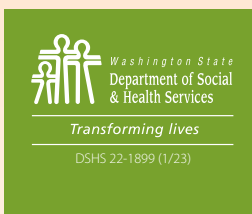

Here's what you need to know

Emergency food allotments are ending in **February** and your food benefit amount will decrease beginning March 2023.

From March 2020 to February 2023, the federal government issued temporary emergency funding to provide families with additional food benefits during the COVID-19 pandemic.

Starting in March 2023

The amount of food benefits you will receive without the emergency benefits will depend on your specific circumstances.
