Employment Status of Washington Apple Health  
(Medicaid) and Non-Client Individuals  
with Dependents Who Are Apple Health Clients | FULL REPORT  
November 2022

## Introduction

There have been longstanding national trends—predating the passage of the Affordable Care Act and implementation of Medicaid Expansion—toward an increasing number of employers faced with rising employee health care costs choosing to (a) drop health care benefits for their employees or (b) pass on to their employees a greater share of coverage costs. Therefore, there have been trends towards more employees and their dependents applying for health care supported with public funds. In response to these trends, the 2006 State Legislature enacted Engrossed Substitute House Bill (ESHB) 3079. This legislation directed the Department of Social and Health Services (DSHS) and the Health Care Authority (HCA), in coordination with the Employment Security Department (ESD), to report annually on the employment of Medical Assistance clients.

This report provides both aggregate and employer-specific data related to clients covered by the Washington State Health Care Authority's Apple Health (Medicaid) program, and non-client individuals with dependents who have Apple Health coverage, as specified in the legislation (enacted as Chapter 264, Laws of 2006 and codified in RCW 74.09.053 and RCW 70.47.170). Governor Gregoire signed ESHB 3079 but vetoed the emergency clause included in the bill. The Governor's veto message urged caution when interpreting data provided in this report:

The employer information to be provided by the Health Care Authority (HCA) and the Department of Social and Health Services (DSHS) is not a requirement for enrollment or eligibility. Consequently, data contained in the reports will have been provided on a voluntary basis and will be unverified. The two reports—an employer specific report and an aggregated report—will originate from separate sources. Therefore, they will not be comparable. The reports will also be based on a point-in-time data collection and will therefore not reflect changes in employment status. These data limitations must be considered when interpreting the reports.

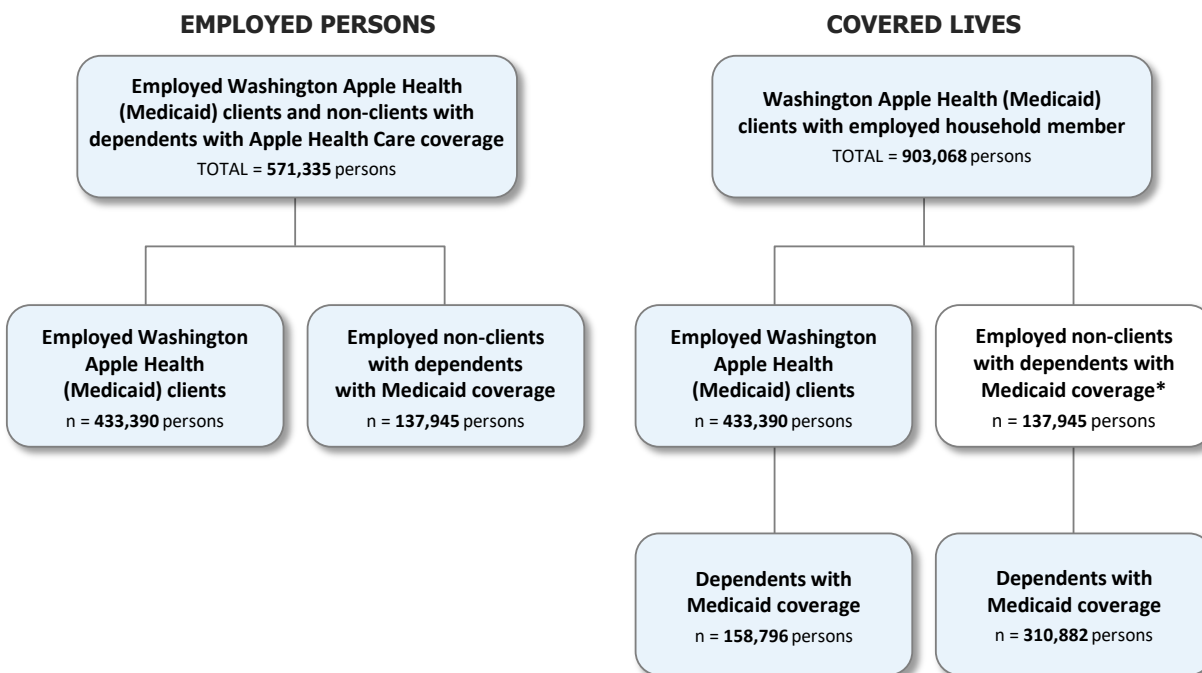

Please see the Data Sources and Limitations section on page 7 for a discussion of additional data limitations associated with this report.

ESHB 3079 directs the provision of two separate sets of information related to Apple Health clients and non-client individuals with dependents who are Apple Health clients:

- Aggregate data for calendar year (CY) 2021 by industry, firm size, and public/private ownership type. These data are based on ESD quarterly wage data.
- By-firm data for January and June 2022 for employers associated with 50 or more persons with Apple Health coverage. These data are derived from the DSHS Automated Client Eligibility System (ACES). Due to the required reporting deadline and data availability limitations, April 2022 data are reported in place of June 2022.

## Key Findings

**Figure 1. Overview of Counts of Employed Individuals with Washington Apple Health (Medicaid) Coverage and Covered Dependents of Employed Non-Client Individuals – Average per quarter in CY 2021**

\*Does not add to covered lives count.

1. In the average quarter in CY 2021, there were 2,026,975 persons with Apple Health coverage, excluding clients who received only family planning coverage.
2. In the average quarter in CY 2021, there were 433,390 persons with Apple Health coverage and ESD-reported earnings in the quarter (see Table 2A “All Firms”). This represents about 21 percent of all persons with Apple Health coverage in the average quarter in CY 2021.
3. The 433,390 employed Apple Health clients had 158,796 dependents with Apple Health coverage, for an average quarterly total of 592,186 covered lives (see Table 2B “All Firms”). This is 29 percent of all persons with Apple Health coverage in the average quarter in CY 2021.
4. We use the term “employed non-client individuals with dependents with Apple Health coverage” to refer to employed persons who do not have Apple Health coverage, but who have dependents with Apple Health coverage. In the average quarter in CY 2021, there were 137,945 employed non-client individuals with dependents with Apple Health coverage (see Table 3A “All Firms”). There were 310,882 dependents with Apple Health coverage associated with these employed non-clients (see Table 3B “All Firms”). This represents 15 percent of all persons with Apple Health coverage in the average quarter in CY 2021.

5. Combining employed Apple Health clients and non-clients, there were 571,335 employed Apple Health clients or non-client individuals with dependents with Apple Health coverage in the average calendar quarter in CY 2021 (see Table 1A “All Firms”).
6. In the average quarter in CY 2021, there were 903,068 Apple Health covered lives associated with the 571,335 employed Apple Health clients and non-client individuals with dependents with Apple Health coverage (Table 1B “All Firms”). This represents 45 percent of all persons with Apple Health coverage in the average quarter in CY 2021.
7. The 571,335 employed Apple Health clients and non-client individuals with dependents with Apple Health coverage in CY 2021 represented a fourteen percent increase relative to the 490,919 employed clients and non-clients observed in CY 2020.
8. In CY 2021, about 61 percent of employed Apple Health clients and non-client individuals with dependents with Apple Health coverage worked for firms with more than 50 employees (see Table 1A “By Firm Size”).
9. Employed non-client individuals with dependents with Apple Health coverage worked more hours than employed Apple Health clients. More than half (53 percent) of non-client individuals with dependents with Apple Health coverage worked full-time (more than 455 hours) in the quarter (Table 3A “All Firms”), compared to only 25 percent of employed Apple Health clients (Table 2A “All Firms”).
10. There were about 10.7 million months of Apple Health coverage in CY 2021 associated with employed Apple Health clients and non-client individuals with dependents with Apple Health coverage. About 66 percent of the months were associated with employed Apple Health clients (7.0 million coverage months), and about 34 percent were associated with employed non-client individuals with dependents with Apple Health coverage (3.7 million coverage months).
11. Estimated HCA medical and DSHS mental health expenditures for the months of coverage associated with employed Apple Health clients and non-client individuals with dependents with Apple Health coverage were \$1.914 billion in CY 2021 (all funds). Of this total, approximately \$614 million were associated with employed Apple Health clients, and \$1.3 billion were associated with employed non-client individuals with dependents with Apple Health coverage.
12. Associated annual Apple Health coverage costs were greatest for persons employed in the following industries: Retail Trade (\$338 million); Health and Social Assistance (\$321 million); and Accommodation and Food Services (\$270 million).
13. Almost all (92.9 percent) of the annual Apple Health coverage costs were associated with private employers (\$1.778 billion), as opposed to public employers (\$136 million).
14. Detailed information for the largest employers of Apple Health clients and non-client individuals with dependents with Apple Health coverage can be found in the supplemental tables at the end of this report.

## Employment Trends for Apple Health Clients and Non-Clients with Covered Dependents

The table below provides an overview of the trend in the proportion of Apple Health clients associated with employment from 2005 to 2021, as identified using ESD quarterly earnings data. Some of the year-to-year variation in the table below is the result of slight changes in data processing methods over the reporting period. Since the Basic Health Plan (BHP) has been eliminated, BHP enrollees are excluded, and the data only reflects Apple Health trend information.

**Table 1. Employment and Coverage Trends for Washington Apple Health (Medicaid) Clients and Non-Clients with Covered Dependents**

	Employed Clients and Non-Clients with Covered Dependents	Average Quarterly Covered Lives Associated with Employment	Average Quarterly Total Washington Apple Health (Medicaid) Enrollment	Percent of Total Washington Apple Health (Medicaid) Enrollment Associated with Employment
<b>CY 2005</b>	240,062	425,765	936,860	45%
<b>CY 2006</b>	243,114	427,448	908,870	47%
<b>CY 2007</b>	231,111	404,026	915,322	44%
<b>CY 2008</b>	256,489	440,925	975,218	45%

<b>CY 2017</b>	522,503	853,062	1,878,129	45%
<b>CY 2018</b>	509,300	829,837	1,837,077	45%
<b>CY 2019</b>	500,729	815,704	1,803,147	45%
<b>CY 2020</b>	490,919	803,290	1,861,372	43%
<b>CY 2021</b>	571,335	903,068	2,026,975	45%

## Data Sources and Limitations

Aggregate data by industry, firm size, and public/private ownership type are based on ESD quarterly earnings data and monthly Apple Health eligibility data for CY 2021. ESD earnings data do not include self-employment, federal government employment, or unreported earnings.

By-firm data are based on ACES employer name data linked to Apple Health eligibility data for January and April 2022. ACES employer name information does not permit the identification of separately owned franchises operating under the same business name. The employer's name information used in this report is self-reported, is not a required element of the application for public assistance and is not independently verified by staff. With the increased use of independent contractors, it is important to note that ACES data does not distinguish between employees and

Employment Status of Washington Apple Health (Medicaid) and Non-Client Individuals with Dependents Who Are Apple Health Clients | FULL REPORT  
November 2022

independent contractors who may self-identify as employees. Employer rankings are based on the average monthly number of employed persons associated with Apple Health clients in January and April 2022.

The creation of “households” for these analyses depends on assistance unit information in the ACES data system. From the perspective of creating household units from ACES data, limitations are likely to become more significant for measurement as more covered lives have Apple Health eligibility determined outside of the ACES data system.

The tables report the number of employed Apple Health clients and non-clients with covered dependents, and the associated “member months” by type of coverage. Coverage type was determined based on ProviderOne Recipient Aid Category (RAC) codes.

***The Family Medical / Pregnant Individuals coverage group*** includes persons receiving TANF and related “classic” Apple Health coverage, as well as persons enrolled in Apple Health coverage for low-income pregnant individuals.

***The Apple Health for Kids program*** provides medical coverage to children in families that do not meet Temporary Assistance for Needy Families (TANF) eligibility criteria but have household income below 200 percent of the Federal Poverty Guideline (FPL) through Medicaid funding, 300 percent of FPL through the Children’s Health Insurance Program (CHIP) funding, and up to 300 percent of the FPL for non-citizen children through the Children’s Health Program (CHP). This coverage group also includes a small number of children enrolled in Foster Care or Adoption Support coverage.

***The New Adult coverage group*** includes adults eligible for expanded Apple Health coverage under the Affordable Care Act.

***The Persons with Disabilities coverage group*** includes persons enrolled in Apple Health Disabled or Blind coverage groups.

***The “Other” coverage group*** includes a small number of persons receiving Apple Health coverage through programs for refugees and the elderly. Clients who received family planning coverage only were excluded from the analysis.

Employed non-client individuals with dependents with Apple Health coverage were counted if they were part of a household with at least one person who received Apple Health coverage. To be counted, the employed person had to be identified as the head of household, spouse, or unmarried co-parent of a child in common with the head of household.

Counts of employed clients or non-client individuals with dependents with Apple Health coverage were associated with a single “primary employer” in each month. The vast majority of employed clients or non-client individuals with dependents with Apple Health coverage had a single employer

in the quarter. In cases where the person had more than one employer in the quarter, the primary employer was defined to be the employer from whom the person received the greatest earnings.

To create an unduplicated count of member months and expenditures associated with employed persons, in the cases where a dependent was associated with more than one employed person, we associated the dependent with the person who had the highest earnings. For both the aggregate and by-firm data tables, per-member per-month Apple Health expenditure estimates were based on per capita estimates for CY 2021.
