Background

DSHS requires a government-to-government approach to seek consultation and participation by representatives of tribal governments in policy development and service program activities. This is in compliance with the authorizing sources section listed above.

Definitions

Alaska Native (AN): Individuals the federal government recognizes in accordance with [43 USC Chapter 33 section 1602\(b\)](#).

American Indian (AI): Individuals the federal government recognizes in accordance with [25 USC Section 2902](#).

American Indian Health Commission: The [American Indian Health Commission](#) is a tribally driven, non-profit organization working on behalf of the 29 federally recognized Indian tribes and two Urban Indian Health Organizations in the state of Washington.

Confer: For planning purposes, DSHS seeks advice with UIOs on policies and initiatives related to healthcare for urban AI\ANs, furthering the fulfillment of the trust responsibility to urban AI\ANs.

Consultation: A tribal consultation is a formal, two-way, government-to-government dialogue between official representatives of tribes, and state agencies to discuss state proposals before the state agency makes decisions on those proposals. The state agency provides sufficient advance notice to appropriate tribal leaders of upcoming consultation sessions and, following the consultation sessions, explains to those tribal leaders how the final agency decision incorporates tribal input. [See Attachment 3](#).

Contracted services: DSHS enters into contracts for client services, personal services, and purchased services. These contractors include individual providers, public agencies, and private (profit or non-profit) organizations, including but not limited to Area Agencies on Aging. Other contracted agencies also provide licensing services, group care services, and other social and health services.

Culturally relevant: A condition where services provided to clients are appropriate according to the clients' cultural backgrounds.

DSHS cabinet: The advisory body that supports the DSHS secretary and includes assistant secretaries, chief of staff, deputy chiefs of staff, director of division of vocational rehabilitation (DVR), and senior directors for human resources division (HRD), legislative affairs, office of justice and civil rights, office of communications and government affairs; and office of equity, diversity, access, and inclusion.

DSHS subcabinet: Representatives to the secretary's executive team including office of the secretary senior directors and key deputies from DSHS administrations and DVR. The Office of Indian Policy senior director is a member of this team.

Federally recognized tribes (tribes): Self-governing AI/AN governments recognized under applicable federal and common law. Because of their unique sovereign status, federally recognized tribes have the inherent power to make and enforce laws on their lands, and to create governmental entities. A **federally recognized tribe** is an AI/AN tribal entity that is recognized as having a government-to-government relationship with the United States, with the responsibilities, powers, limitations, and obligations attached to that designation, and is eligible for funding and services from the Bureau of Indian Affairs.

Government-to-Government: A unique legal and political relationship with Indian tribes and special relationship with Alaska Native entities as provided in the Constitution of the United States, treaties, and federal statutes.

Governor's Indian Health Advisory Council (GIHAC): The purpose of the legislatively mandated [Governor's Indian Health Council](#) is to address issues in Washington state's Indian health care delivery system and setting overall vision and goals for the Indian Health Improvement Reinvestment Account. It was created in 2019 through [Senate Bill 5415](#). The council includes representatives from tribes, urban Indian health organizations, state agencies, and legislators.

Identified key positions: This term refers to DSHS managers and employees in positions that have policy or budget decision-making authority or influence, and whose emphasis of responsibility is working in conjunction or association with the tribes and UIOs. This includes regional administrators, deputy regional administrators and tribal liaisons.

Indian Policy Advisory Committee (IPAC): DSHS advisory committee comprised of representatives from federally recognized tribes in Washington state and UIOs recognized by IPAC. It guides the implementation of the Centennial Accord and DSHS American Indian Policy within DSHS.

Office of Indian Policy (OIP): Serves as subject matter experts (SMEs) for government-to-government relations between tribal governments and DSHS and advises the DSHS secretary. OIP is responsible for coordination, collaboration, and engagement with federally recognized tribes and UIOs in Washington state to address the collective service needs of its AI/AN citizens.

Plan and progress report: The 7.01 plan and progress report is a matrix submitted annually to the DSHS assistant secretaries and DVR division director to record the government-to-government work of the regions with tribes and UIOs. (See Attachment 1)

Tribal sovereignty: Federal law recognizes federally recognized tribes as possessing inherent sovereignty over their members and their territory. The Code of Federal Regulations (CFR) for the Bureau of Indian Affairs identifies territory as the service area and the CFR for Indian Health Services defines territory as the contract health services delivery area. Sovereignty means that tribes have the legislative, executive, and judicial power to make and enforce laws, and to establish courts and other forums for resolution of disputes.

Urban Indian Organizations (UIOs), formerly known as Recognized American Indian Organizations: Organizations, as recognized in accordance with IPAC by-laws, including the American Indian Community Center (AICC), Chief Seattle Club, the NATIVE Project, Seattle Indian Health Board (SIHB), Small Tribes of Western Washington (STOWW), South Puget Intertribal Planning Agency (SPIPA), a tribal consortium, and United Indians of All Tribes Foundation (UIATF). These organizations exercise their rights as AI/ANs, citizens of the United States, and residents of the state of Washington.

Policy

A. General Guidelines

1. DSHS must provide necessary and appropriate social and health services to citizens of federally recognized tribes in Washington state, UIOs and AI/AN citizens.
2. DSHS recognizes, honors, and supports consultation with tribes on a government-to-government basis, and for planning purposes, confers with UIOs.
3. When considering decisions that may impact tribes, UIOs, and AI/ANs, DSHS must:
 - a. Recognize AI/AN tribes as federally recognized political governing bodies and respect their sovereignty and the unique social and legal status they hold. DSHS must acknowledge and consider findings under the [Supremacy Clause](#) and [Commerce Clause](#) of the United States Constitution, federal treaties, executive orders, the [Indian Citizenship Act of 1924](#), the [Indian Reorganization Act of 1934](#), the [Indian Child Welfare Act of 1978](#), the [American Indian Religious Freedom Act of 1978](#), the [Centennial Accord](#), other relevant statutes, and tribal, federal, and state court decisions.
 - b. Acknowledge and consider federal law providing for AI/AN self-determination and self-governance for federally funded and federally

- assisted programs without diminishing the sovereign status of federally recognized tribes.
- c. Work in cooperation and coordination with the Governor's Office of Indian Affairs.
 - d. Seek federally recognized tribes' involvement and consultation in, but not limited to, DSHS plans, budgets, policies, program services (including those provided by contractors and grantees), operational procedures, federal waivers, or exemptions to state plans that impact tribal citizens.
 - e. Confer with UIOs on policies and initiatives related to social and health services for urban AI/ANs, furthering the fulfillment of the trust responsibility to urban AI/ANs.
4. DSHS must ensure that programs and services to tribes, UIOs, and individual AI/ANs are culturally relevant and in compliance with this policy.
 5. DSHS must conduct periodic evaluations of the responsibilities listed above to identify progress and outstanding issues per the 7.01 planning process. ([See Attachment 1](#))
 6. This policy does not waive, alter, or diminish the sovereignty of federally recognized tribal governments, nor does it affect federal or tribal protected rights for individual AI/ANs, or any other rights under the Centennial Accord, treaty, executive order, self-determination, self-governance, or other applicable federal, tribal, or state laws.
 7. DSHS recognizes the rights of federally recognized tribes to bring their issues and needs to the direct attention of the Governor under the Centennial Accord.
 8. This policy provides opportunities for tribes and UIOs to participate in part or in total at their discretion. This policy is in full force and effect regardless of the degree of participation of any tribe or UIO. DSHS employees must extend the full benefit of this policy even if a tribe or UIO decides not to participate.
 9. Each Aging and Long-Term Support Administration (AL TSA), Behavioral Health Administration (BHA), Developmental Disabilities Administration (DDA), Economic Services Administration (ESA) and DVR regional administrator, field services administrator, district manager, or division director must develop and submit an annual DSHS administrative policy 7.01 plan and progress report to their assistant secretary or designee, or DVR director by April 2 of each year, in collaboration with tribes or UIOs. 7.01 plans are living documents and include tools to track the progress of DSHS' relationship with tribes or UIOs. As such, these documents are updated on a regular basis and as requested by tribes or UIOs. Updates must be approved by both parties. Each AL TSA, BHA, DDA, and ESA assistant secretary and DVR director must submit the consolidated plan and

update for their administration or DVR to OIP by April 30 of each year. The OIP senior director must provide the DSHS subcabinet an overview of these administrations and DVR's implementation plans by June 30 of the same year. A uniform matrix format will be used for performance measurements. See [Attachment 1: DSHS Administrative Policy 7.01 Implementation Plan Reporting Guidelines](#)

10. AL TSA, BHA, DDA, DVR, and ESA appointing authorities must include representatives from tribes and UIOs on employee interview panels for identified key positions such as regional administrators, deputy regional administrators, tribal liaisons, and any DSHS position that has policy or budget decision-making authority or influence and whose emphasis of responsibility is working in conjunction or association with the tribes and UIOs. The respective OIP regional manager will contact the tribes and UIOs to facilitate participation. When tribes are not available, a member of OIP must be included on the interview panel.
11. Employees in identified key positions are required to attend DSHS American Indian AP 7.01 Government-to-Government training. These are leaders who are identified as having authority to make decisions, work with policy and policy development, who are responsible for managing various resources (staff and funding). Tribal liaisons are included in this group as they are assigned to collaborate with tribes and UIOs and their respective leadership to provide services.

B. Communications

All communications with the tribes and UIOs will be in accordance with the communication protocol. [See Attachment 2](#)

1. OIP staff, AL TSA, BHA, DDA, DVR, and ESA regional managers, and DSHS tribal liaisons must maintain information distribution lists and provide information to tribes and UIOs..
2. The OIP senior director meets with AL TSA, BHA, DDA, and ESA assistant secretaries and DVR director as necessary to timely identify and address needs between DSHS and the tribes and discuss actions.
3. AL TSA, BHA, DDA, and ESA assistant secretaries and the DVR director must update the DSHS cabinet on tribal relations and the status of their DSHS administrative policy 7.01 plan and progress report.

4. OIP staff must hold quarterly meetings with headquarter tribal liaisons and program managers identified by AL TSA, BHA, DDA, DVR, and ESA to discuss collaboration and integration within DSHS with respect to tribal services.
5. AL TSA, BHA, DDA, and ESA assistant secretaries and DVR director must attend each IPAC meeting and be prepared to discuss the planning for specific areas of partnership with the tribes and UIOs. This may include providing reports or presentations, depending on the planned activity and need.

C. Consultation Process

Consultation with the tribes and confer with UIOs must comply with the consultation protocols. [See Attachment 2](#)

1. DSHS may initiate a consultation process with tribes and seek advice from IPAC and UIOs at the same time. See [Attachment 3, DSHS Administrative Policy 07.01 consultation flowchart](#) that provides detailed information of this process.
2. Representatives from DSHS, tribal governments, and UIOs must identify the participants in the two-way consultation/confer process and establish participation at the appropriate level as early as possible.
3. Participants must provide a clear description of the nature of the issues. DSHS must provide all participants in advance with related documents or statements describing the purpose and issues.
4. Participants must have sufficient time to review documents and respond to requests for consultation. The amount of time can vary depending on the nature and complexity of the issues. If decisions require quick action due to imposed deadlines, DSHS must make every effort to provide advance written notice to allow for meaningful input and response.
5. Participants must establish and adhere to a schedule for consultation. DSHS, tribal participants, and UIOs must jointly determine the protocols, timing, and number of meetings needed for consultation.
6. Participants must recognize that each tribe is culturally and administratively unique. It is important to acknowledge tribal customs and protocols.
7. Participants must schedule roundtables or workgroups to develop recommendations for actions on various technical, legal, or policy issues per the Consultation Protocol.

8. Participants must report the outcomes of the consultation to the tribes, UIOs, DSHS secretary, OIP and appropriate administrations or DVR. The goal is to reach consensus at the outcome of the consultation, so DSHS and tribal participants must actively participate in the consultation to ensure that all views are considered. Once the consultation is complete and a policy decision is final, all recommendations for follow-up actions must be communicated, implemented, and monitored.
9. For planning purposes, DSHS will confer with UIOs on policies and initiatives related to healthcare for urban AI/ANs, furthering the fulfillment of the trust responsibility to urban AI/ANs.

D. Dispute Resolution Process

In recognition of the sovereign government status of tribes, when consultation alone has not succeeded in the resolution of issues, tribes have the authority to raise the issues to the assistant secretary, DVR division director, DSHS secretary, and the governor.

E. Duties and Responsibilities

1. The DSHS secretary must:
 - a. Communicate with each tribe, UIO, and IPAC, review their recommendations, and where appropriate, implement the recommendations within the realm of their authority, and provide periodic updates to the governor's cabinet.
 - b. Consider seeking legislative support for tribal and UIO programs and services when submitting budget requests to the Office of Financial Management (OFM) and submitting legislative proposals related to social and health services.

DSHS Official

Attachment 3 DSHS American Indian AP 07.01 Consultation Flowchart

May use the IPAC subcommittee for the administration or DVR as the forum for the workgroup process⁴.

Reports the outcomes of the consultation to the tribes, DSHS secretary, IPAC, and other administrations or DVR that could be affected.

Footnotes:

1. The “consultation” with tribes and “confer” with UIOs can occur at the same time that IPAC performs their “advisory” work.
2. Sometimes the same employee provides the consultation comments on behalf of the tribe and prepares the advisory comments as an IPAC delegate.
3. The IPAC letter would also include a list of the current IPAC delegates and subcommittee members. This would make it easier for tribal leaders to identify people who are already working on the issues through IPAC.
4. Many tribes and UIOs have already designated delegates to IPAC, and the existing subcommittee could be the lead resource for tribes and UIOs to work on the joint DSHS/tribal model development.
5. Some tribes and UIOs may prefer to use their existing IPAC delegates and work through the IPAC subcommittee rather than having duplicate meetings on the same issue.
